WHEREAS, the Historic Architectural Review Commission ("HARC") amendments to Chapter 102 of the Land Development Regulations are initiated by the Historic Architectural Review Commission from time to time to better preserve the character and appearance of the historic preservation districts and other designated historic site or resources; and

WHEREAS, HARC members finds that reducing the number of hearings from two to one specific for developments that require demolition of historic but non-contributing buildings or structures in the historic district will hasten the process for property owners to enhance their properties and property values in the historic district; and

WHEREAS, the Land Development Regulations includes as one criteria to define a historic building, its construction date of 50 or more years prior to the current day, as this is the National standard age for a building to be considered historic; and

WHEREAS, the city's Comprehensive Plan establishes as an objective the maintenance of unique architectural heritage of historically significant resources, of which certain historic but non-contributing buildings and structures lack as they are too highly altered or are not part of the period of significance of the historic district; and

WHEREAS, the Land Development Regulations contains specific criteria for evaluating proposed development requesting the demolition of significant historic buildings and structures and establish the issuance of a Certificate of Appropriateness by the Historic Architectural Review Commission for new construction; and

WHEREAS, the Planning Board held a noticed public hearing on February 16, 2023, where based on the consideration of recommendations by the city planner and city attorney, the Board recommended approval of the proposed amendments;
