

Dear Mayor and Commissioners,

June 5, 2023

It is alarming and unjust to think a City Commissioner would retaliate against a Planning Board Member for asking questions that many in the community would also like to ask. We are entitled to express our concerns related to issues impacting our lives, without the fear of subsequent retaliation. Water is an essential utility for the well-being and survival of the community, and it should be the Commissioners, Mayor, City Manager, and others in government asking these very questions. For a board member to be dismissed for this reason demonstrates a major flaw within our local government. Exposing facts about a situation is reason to be applauded, not dismissed. Perhaps Commissioner Hoover should reflect on her role as a public servant.

Respectfully, 

Peter Cone
