RE: 313 Duval (Hard Rock Cafe) – Noise Exception

Attention: Jim Scholl

One Call Construction has been hired by Hard Rock Café to provide the following construction services:

- *Installation of protection material around scope areas.*
- *Removal of existing drop ceiling with registers.*
- *Removal and salvage of LED troffer lights.*
- *Removal of damaged ductwork insulation.*
- *Repair rough electrical to be put in junction boxes and covered as per code*
- *Fabrication and installation of makeup air ductwork over main fry area.*
- *Installation of duct Installation over all metal duct.*
- *Installation of new ceiling grid.*
- *Installation of 2' x 4' fire rated vinyl covered drop-in tiles.*
- *Installation of salvaged LED Troffer lights.*
- *Installation of new LED Troffer lights in areas with existing fluorescent lights.*
- *Removal of all job debris.*

Thus far, we have been able to work during business hours. We are now at a point where the nature of our work will interfere with their daily operations, as we need to work in the kitchen area. We would like to request a Noise Exception from December 11th to January 12th, Monday through Friday only, 10pm to 6am (Except Holidays). If you have any questions, please contact Phill Cooke at 305-916-0102, he will be the Supervisor onsite for the job.

Sincerely,

David Pouliot
Owner of One Call Construction
