

Staff Report for Item 3

To: Acting Chairman Richard McChesney and Historic Architectural Review Commission Members

From: Kelly Perkins
HARC Assistant Planner

Meeting Date: August 23, 2016

Applicant: Meridian Engineering

Application Number: H16-03-0042

Address: #1421 Catherine Street

Description of Work:

Demolition of carport.

Site Facts:

The one-story, wood frame structure is listed as a contributing resource in the survey, and it was constructed c.1920. The carport in question is not historic, as it does not appear in any Sanborn maps or in any historic photographs.

Ordinances and Guidelines Cited in Review:

Sec. 102-217 (2): Demolition of non-historic or non-contributing buildings

Demolitions and Relocations (page 39).

Staff Analysis

This Certificate of Appropriateness proposes the demolition of a non-historic carport. Staff believes the demolition will not result in the following items:

- (1) The demolition will not diminish the overall historic character of a district or neighborhood;

- (2) Nor will it destroy the historic relationship between buildings or structures and open space. Demolition will only improve the relationship of the contributing structure to the street and its neighboring structures.
- (3) This demolition will not affect the front building façade.
- (4) Staff does not believe elements that are proposed to be demolished will qualify as contributing as set forth in Sec. 1021-62(3).

Therefore this application can be considered for demolition. As the carport is not historic, only one reading is required for demolition.
