Staff Report for Item 11

To: Chairman Haven Burkee and Historic Architectural Review Commission Members

From: Matthew Crawford
Historic Preservation Assistant

Meeting Date: September 23, 2025

Applicant: Bender and Associates Architects

Application Number: C2025-0079

Address: 1400 Duval Street

Description of Work

Demolition of non-historic existing structure on west elevation.

Site Facts

The property under review contains historic Queen Anne Revival buildings as primary structures. The principal buildings are listed as a contributing resource within the historic district, built circa 1886 and 1906. The structure under review is a non-historic one-story structure located at the front of the property, adjacent to the pocket park located on the Southern end on Duval Street.

Ordinance Cited on Review:

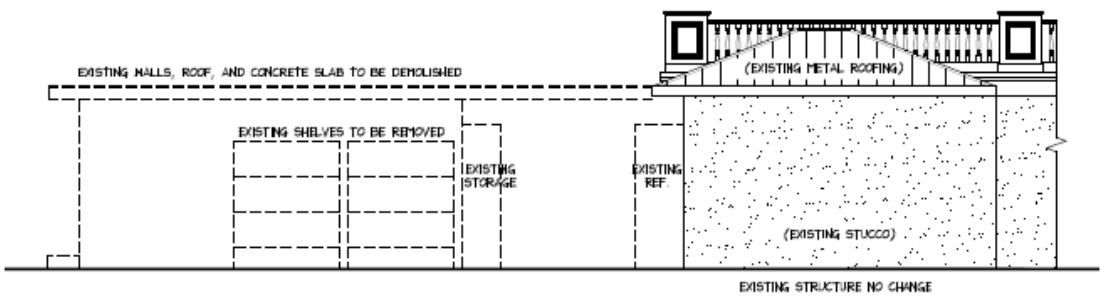

- Section 102-217 (4), demolition for contributing and historic structures of the Land Development Regulations.
- Section 102-218 - Criteria for Demolition of the Land Development Regulations.

Staff Analysis

The Certificate of Appropriateness under review proposes the demolition of a non-historic storage/mechanical equipment structure. This is a small structure with no character defining features or significance to the overall site.

Proposed Site Plan

It is staff's opinion that the request for this demolition shall be based on the demolition criteria of Chapter 102 Section 218 (a) of the LDR's. The criteria for demolition of historic structures state the following:

(a) The historic architectural review commission shall issue a certificate of appropriateness for an application for demolition:

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration, or it does not meet any of the criteria of section 102-125(1) through (9).

The main structure on the site is historic and contributing; however, the accessory structure proposed to be demolished is a non-historic structure on the property.

The following is the criteria of section 102-125:

1 Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

Staff opines that the accessory structure does not embody distinctive characteristics of a type, period, or method of construction.

2 Is not specifically associated with events that have made a significant contribution to local, state, or national history.

It is staff understanding that no significant events have ever happened on the site relevant to local, state, or national history.

3 Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state, or nation, and is not associated with the life of a person significant in the past.

It is staff's understanding that the elements under review have no significant character and are not associated with the life of a significant person in the past.

4 Is not the site of a historic event with a significant effect upon society.

It is staff's understanding that the site is not associated with any significant event.

- 5 *Does not exemplify the cultural, political, economic, social, or historic heritage of the city.*

It is staff's understanding that the elements under review do not exemplify the cultural, political, economic, social or historic heritage of the city, though the structure does contribute to the overall historic fabric of the district.

- 6 *Does not portray the environment in an era of history characterized by a distinctive architectural style.*

Staff believes that the existing accessory structure does not portray an era of history characterized by a distinctive architectural style.

- 7 *If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed, or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.*

This is not the case.

- 8 *Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and*

The elements under review do not have a unique location or physical characteristics which represent an established and familiar visual feature of its neighborhood or of the city.

- 9 *Has not yielded, and is not likely to yield, information important in history.*

Staff believes that based on current documentation, the structure has not yielded, and is unlikely to yield, any historically significant information.

It is the staff's opinion that the request for demolition may be considered as the accessory structure under review meets the criteria for demolition. Although the main house on the property is historic and contributing, the accessory structure proposed to be demolished is non-historic and its historical significance is limited.

DETAILED PROJECT DESCRIPTION OF DEMOLITION

Demolition of Non-Historic existing structure (pool area)

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies):

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

Structure to be demolished is non-historic.

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

Structure to be demolished is non-historic.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

- (b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

Structure to be demolished is non-historic.

- (c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

Structure to be demolished is non-historic.

- (d) Is not the site of a historic event with significant effect upon society.

Structure to be demolished is non-historic.

- (e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

Structure to be demolished is non-historic.

- (f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

Structure to be demolished is non-historic.

- (g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

Structure to be demolished is non-historic.

- (h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city and does not exemplify the best remaining architectural type in a neighborhood.

Structure to be demolished is non-historic.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(i) Has not yielded, and is not likely to yield, information important in history,

Structure to be demolished is non-historic.

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies):

(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

The removal of the non-historic structure does not adversely affect the overall historic character of the district or neighborhood.

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

The removal of the non-historic structure does not destroy the historic relationship between buildings or structures and open space.

(3) Removing an historic building or structure in a complex; or removing a building façade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

The removal of the non-historic structure does not adversely affect the overall historic character of the district or neighborhood.

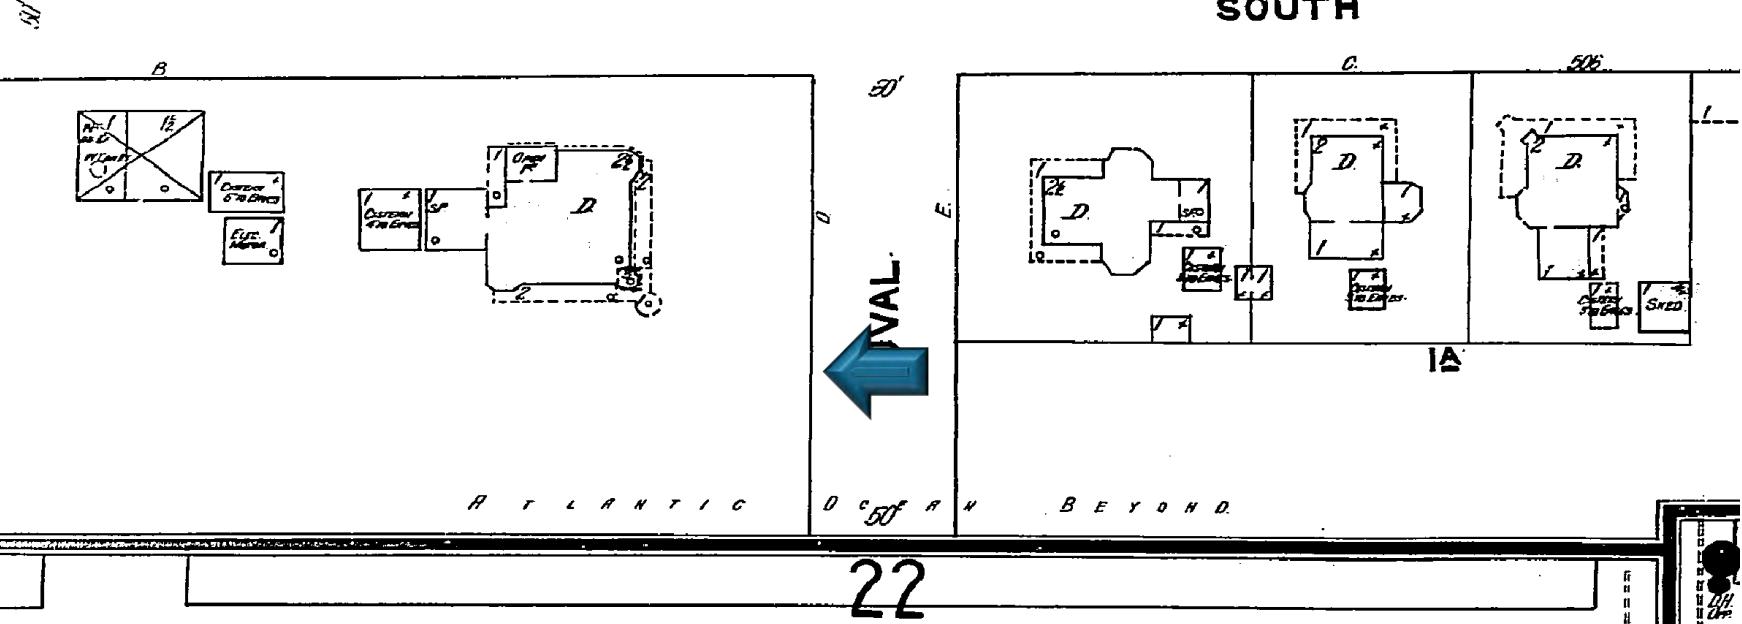

(4) Removing buildings or structures that would otherwise qualify as contributing.
