**Subject:** [EXTERNAL] Resolution to Support Fossil Fuel Nonproliferation Treaty

**CAUTION:** This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Commissioner Lopez,

Upon reviewing the resolution, I express my strong support of it. The Florida Keys is an environmentally vulnerable area and we should take immediate action to protect the unique ecosystem while ensuring its sustainability for future generations. The Keys' marine life and fragile coastal habitats are also a vital economic resource for our county. Continued reliance on fossil fuels poses significant threats to our delicate ecosystem. Phasing out fossil fuels can help mitigate adverse effects and safeguard the natural beauty and biodiversity of the Keys.

We should also continue to invest in clean energy to help enhance the resilience of the Keys. By enacting this resolution, we are also sending a powerful message that we are committed to preserving our environment.

Thank you,

Alison Kerr, MPH  
Key West Resident  
Sustainability Advisory Board Member
