

Historic Architectural Review Commission
Staff Report for Item 4

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Enid Torregrosa, MSHP
Historic Preservation Planner

Meeting Date: June 28, 2016

Applicant: Peter Pike, Architect

Application Number: H16-03-0032

Address: #710 Galveston Lane

Description of Work:

New pool house, swimming pool, and wood deck at rear. New side addition with entry porch. New gable roof on rear portion of house and new covered porch.

Site Facts:

The building under review, build circa 1910, is a contributing resource to the historic district. The building is rectangular in footprint and consists of a main gable roof with an attached shed roof on its rear. The rear portion of the house is not original to the building and is not historic.

Guidelines Cited on Review:

- Secretary of the Interior's Standards (pages 16- 23), specifically Standards 1, 9 and 10.
- Secretary of the Interior's Guidelines for Rehabilitating Historic Buildings, specifically New Additions to Historic Buildings recommended placing and location, page 39.
- Roofing (page 26), specifically guidelines 4 and 5.
- Additions, alterations and new construction (pages 36-38a), specifically guidelines 1, and 3 through 8 of page 37. Guidelines for new construction.
- Decks, pools (pages 39-40), specifically guidelines 3 and 4.

Staff Analysis

The Certificate of Appropriateness in review includes an addition to the north side of a non-historic portion of the house; still the proposed addition will be visible from the lane. As the proposed addition will be attached to the rear of the house, the plan also includes the replacement of the existing rear shed roof to be a side gable one. The proposed addition will protrude approximately eight feet from the north wall. The addition will be setback approximately thirty feet from the front property line and will have an entryway deck facing the lane. Metal v-crimp will be used as the roofing system and wood lap siding will be used on the gable ends to match existing.

The design also includes a detached accessory structure to be used as a pool house. This accessory structure will be located behind the house. The structure will have a gable roof and will be lower in height than the main house. The design includes hardie lap for siding and metal v-crimp for roofing system. Attached to the accessory structure the plan proposes an exterior shower. The plan also includes a swimming pool and a covered porch all at the rear of the house.

Consistency with Guidelines

It is staff's opinion that the proposed attached addition will not require the removal of historic fabric and its mass and scale is in keeping with the historic house. However, the location of the addition will not be on the less publicly visible secondary elevation and therefore will alter the balance and symmetry of the historic structure. Having the addition attached to the rear of the house will make the design in compliance with guidelines 5 and 6.

The proposed change of the rear roof from a shed to a side gable will meet cited guidelines. The existing shed roof is not historic and the new proposed roof form will not destroy historic fabric.

Staff opines that the proposed accessory structure will not obscure or detract from any historic structure within the urban context. The proposed pool, rear deck, and rear porch designs comply with cited guidelines.

CITY OF KEY WEST
CERTIFICATE OF APPROPRIATENESS
APPENDIX FOR DEMOLITIONS
APPLICATION NUMBER H-

16-03-0032

This document applies only to those properties located within the City of Key West Historic Zoning Districts, properties outside the historic zoning districts which are listed as contributing in the Historic Architectural Survey and or properties listed in the National Register of Historic Places.

Applications must meet or exceed the requirements outlined by the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitation and the Key West's Historic Architectural Guidelines. Once submitted, the application shall be reviewed by staff for completeness and scheduled for presentation to the Historic Architectural Review Commission for the next available meeting, unless the demolition request is for a *bona fide* Code Compliance case, in which case staff may review and approve the demolition request. **The applicant must be present at this meeting. Any person that makes changes to an approved Certificate of Appropriateness must submit a new application with such modifications.**

The filing of this application does not ensure approval as submitted. Applications that do not possess the required submittals or documentation will be considered incomplete and will not be reviewed for approval.

CRITERIA FOR DEMOLITIONS

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:
