**Diameter: 24”**

**NOTES: The applicants representative showed up at our office with hat in hand to confess for having cut down the protected buttonwoods. We appreciate him promptly bringing this matter to our attention and willingness to be transparent. We are amenable to the Tree Commission to consider a mitigation based on 100% of the trees’ estimated diameters. Urban Forestry has estimated conservatively in favor of a larger diameter size. This was done intentionally to fully account for the loss.**
