Specializing in quality carved & printed signs

Over 40 years in the sign industry. Skills include design, hand lettering, faux finishing, hand and machine carving, gold and all metal leaf applications to any substrate, Fabrication of signs using wood, plastics, metals, stone, neon, glass, fiber optics, LED lighting and composite materials. Can produce any sign using any material from design and engineering to fabrication and installation. I have consulted with many companies, county and city governments on signage materials, fabrication methods, finishes, codes and specification requirements.
