Staff Report Item 11b

Meeting Date: January 28, 2014

Applicant: Thomas Kelly, Designer

Application Number: H13-01-1850

Address: #629 Elizabeth Street

Description of Work: Demolition of cbs rear addition.

Building Facts: The house in question is listed as a contributing resource. The one story house was built in 1900. According to the Sanborn maps and a circa 1965 photo the attached back cbs addition has been altered through time; it was enlarged in footprint and was covered with wood lap siding. The house sits on an unusual shape lot where Windsor Lane meets Elizabeth and Angela streets. The house has been abandoned and neglected for the past decades.

The Planning Board approved a resolution for variances for front and rear yard setbacks.

Ordinance Cited in Review: Sections 102-217 (2), demolition for contributing or historic structures of the Land Development Regulations.

Staff Analysis

The Certificate of Appropriateness proposes the demolition of the back attached addition. The addition is a cbs structure built over a slab. At some point in time the addition was enlarged and lap siding was installed over the exterior walls. The siding shows extreme decay due to neglect. It is staff's opinion that the existing cbs structure is not historic nor can it be deemed contributing to the historic house in a near future.

If the demolition request is approved this will be the only reading required for demolition since the back cbs structure as it stands today cannot be considered historic nor it is a contributing part of the historic house.
