

Historic Architectural Review Commission Staff Report for Item 11

To: Chairman Haven Burkee and Historic Architectural Review
Commission Members

From: Enid Torregrosa-Silva, MSHP
Historic Preservation Planner

Meeting Date: October 26, 2022

Applicant: A2O Architecture

Application Number: H2022-0042

Address: 629 Dey Street

Description of Work:

Demolition of existing house.

Site Facts:

The site under review has consists of a one-story non-contributing dwelling unit. According to the Sanborn maps and historic photos the house was built between 1948 and 1958. The Property Appraiser's records state the built date as 1938, which is inaccurate. The house has been altered through time, including the partial enclosure of an original west side porch and rear addition. There are two non-historic sheds in the site and several mature trees. Many historic houses can be found in the urban block. The applicant has met with the urban forestry manager to review the plans.

Ordinance Cited on Review:

- Section 102-217 (3), demolition for contributing and historic structures of the Land Development Regulations.

Staff Analysis:

The Certificate of Appropriateness proposes the demolition of a non-contributing but historic one-story structure. The house is considered historic as it was built more than fifty years ago. The

structure does not possess any architectural or historical qualities found in structures build during the period of significance of the historic district. Changes to character defining features are evident in current conditions.

It is staff's opinion that the request for demolition shall be reviewed based on the demolition criteria of Chapter 102 Section 218 (a) of the LDR's. The criteria state the following.

(a) The historic architectural review commission shall issue a certificate of appropriateness for an application for demolition:

- (1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration, or it does not meet any of the criteria of section 102-125(1) through (9).*

It is staff's opinion that the existing house cannot be considered irrevocable compromised by extreme deterioration.

The following is the criteria of section 102-125:

- 1 Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction;*

Staff opines that the house has no distinctive characteristics of a type or method of construction and is not a significant structure within the urban context.

- 2 Is not specifically associated with events that have made a significant contribution to local, state, or national history;*

It is staff's understanding that no significant events have ever happened in the site relevant to local, state, or national history.

- 3 Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past;*

The house under review has no significant value to the development, heritage, or cultural record of the city.

- 4 Is not the site of a historic event with a significant effect upon society;*

The site is not associated to any event with significant effect upon society.

- 5 *Does not exemplify the cultural, political, economic, social, or historic heritage of the city;*

The house under review cannot be considered an example of social, cultural, or historic heritage of the city.

- 6 *Does not portray the environment in an era of history characterized by a distinctive architectural style;*

The house under review is not a fine example of a distinctive architectural style.

- 7 *If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif;*

This is not the case.

- 8 *Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and*

The house under review does not exemplify an outstanding remaining architectural type in its neighborhood and does not possess any significant visual features.

- 9 *Has not yielded, and is not likely to yield, information important in history.*

The house under review does not yield important information in history.

In conclusion, it is staff's opinion that the Commission can consider the request for demolition of the house. If approved this will be one of two required readings for demolition.

DETAILED PROJECT DESCRIPTION OF DEMOLITION
Removal of historic, non-contributing, wood frame structure.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:
Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies):
(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:
(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.
The existing structure is heavily termite deteriorated.
(2) Or explain how the building or structure meets the criteria below:
(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.
The existing structure has been modified and poorly added to over the years, removing any possible character defining qualities.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

No historic event of note is associated with this building.

(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

This structure does not contribute to any such cultural characteristic, nor has any documentation been found of its' connection to a person of significance.

(d) Is not the site of a historic event with significant effect upon society.

No.

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

No.

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

This structure has no distinctive architectural style of note.

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

n/a

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

n/a

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

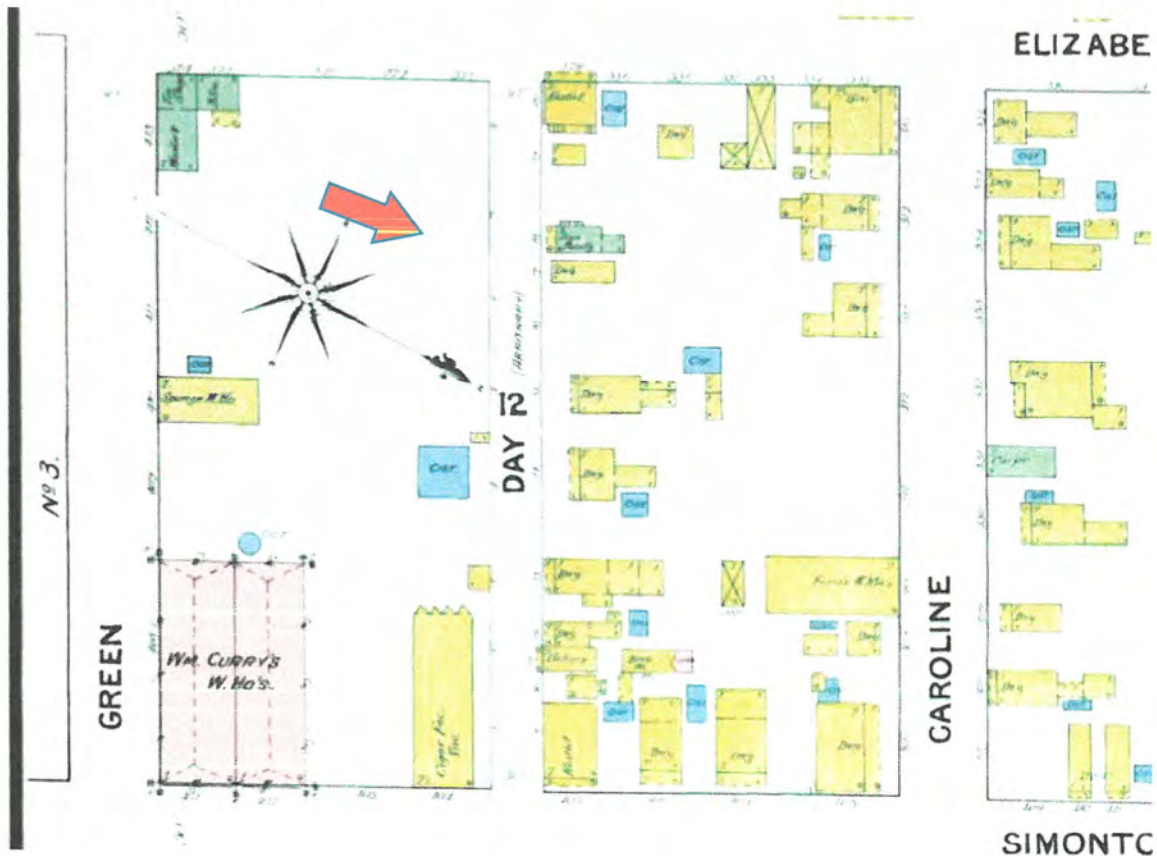

(i) Has not yielded, and is not likely to yield, information important in history,
It is unlikely that something of importance should appear in historic records in relation to this building.

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies):

(1) Removing buildings or structure that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.
This structure does not contribute to the character of the historic neighborhood. It's removal and replacement would greatly improve the neighborhood character.
(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.
The scale of this structure is out of proportion to the grandiose architectural street-scape. Removal of this structure to allow for new construction will contribute the fabric of the neighborhood, and the relationship between structures.
(3) Removing an historic building or structure in a complex; or removing a building façade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.
The existing building detracts from the historic character of the neighborhood.
(4) Removing buildings or structures that would otherwise qualify as contributing.
This structure is non-contributing, and has no significant architectural character defining qualities to suggest otherwise.

HARC POSTING AFFIDAVIT

STATE OF FLORIDA:
COUNTY OF MONROE:

BEFORE ME, the undersigned authority, personally appeared ANTONIO A. OSBOEN, JR., who, first being duly sworn, on oath, depose and says that the following statements are true and correct to the best of his/her knowledge and belief:

1. That a legal notice for Public Notice of Hearing of the Historic Architectural Review Commission (HARC) was placed on the following address: 629 DEY ST. KEY WEST, FL 33040 on the 19 day of OCTOBER, 2022.

This legal notice(s) contained an area of at least 8.5"x11".

The property was posted to notice a public hearing before the Key West Historic Architectural Review Commission to be held on OCTOBER 26, 2022.

The legal notice(s) is/are clearly visible from the public street adjacent to the property.

The Certificate of Appropriateness number for this legal notice is H2022-0042.

2. A photograph of that legal notice posted in the property is attached hereto.

Signed Name of Affiant:

Date: 10.19.2022

Address: 3706 N. ROOSEVELT BLVD. #202

City: KEY WEST,

State, Zip: FLORIDA, 33040

The forgoing instrument was acknowledged before me on this 19TH day of OCTOBER, 2022.

By (Print name of Affiant) ANTONIO A. OSBOEN, JR. who is personally known to me or has produced _____ as identification and who did take an oath.
