Subject: 2786 N. Roosevelt Conditional use
RE; RE# 00066150-000000
2786 N. Roosevelt

When life star ambulance service first started operations behind Winn Dixie it seemed like a siren was blasting every hour, things have slowed now but what will happen when season is back again. Noise is my biggest concern. My family and I have been awakened more that once from the sirens. There should be some rule that the sirens will not go on until they are out to Kennedy drive in the back or North Roosevelt in the front of the overseas market area. If a noise restriction is in place I have no problem with the conditional use, If not I am against it.

Home owner and rental property owner on 11th street behind the proposed location.
