PROFESSIONAL QUALIFICATIONS

PROFESIONAL & COMPANY QUALIFICATION

Team Profile and History

Island Surveying Inc. is a Key West/Monroe County based, veteran owned, Surveying and Engineering firm.

Being in business since August 1983, the firm's principal, Frederick H. Hildebrandt has been a registered Land Surveyor since 1976 and a registered Professional Engineer since 1986. Fred Hildebrandt has surveyed in many counties in Florida, and also in the States of Rhode Island, New Jersey, Connecticut, and Massachusetts. He also surveyed in Asia, Africa and the Caribbean.

The firm is the oldest in Monroe County. Its principal, Fred Hildebrandt is also the only registered surveyor and engineer in the county. It also maintains well over 10,000 past surveys.

Mr. Hildebrandt has been surveying in Key West since 1975. As a surveyor for Carr Smith and Assoc. our first project was surveying and engineering for the renovation of Duval Street. Carr Smith maintained an office in Key West, since approx. 1978. F.H. Hildebrandt was established in August 1983, and replaced Carr Smith at that time. F.H. Hildebrandt's main office was in Miami with a branch office in Key West. In October 1992 Mr. Hildebrandt moved to Key West and also his main and only office. Island Surveying has since been at its current site.

Island Surveying philosophy has always been to maintain as many clients as possible. Since we are involved in the Real Estate and Construction Market, there have been many ups and downs. Also this gave us a broad spectrum of many types of surveying.

Our firm has done extensive work with the United States Navy (Island Surveying has surveyed all of the bases), Monroe County School Board, (we surveyed most of the schools), the City of Key West (submerged Land Leases, Elevation Certificates, sewerage, right-of-way surveys, (Flagler Ave. Nichols Ave.)Beach replenishment, Singh Properties, Old Town Development and others.

Being a small company, Island Surveying has kept up with the rapid change of technology in surveying and engineering. Our computers are updated every few years. We recently purchased i7 processor computers. Also we updated our autocad software to Autodesk infrastructure design suite premium 2013. Drawings are printed on a HP designjet 500 or a sharp printer. All of our computers are networked.

Also the field operation of surveying has changed. Years ago it required a three man survey crew. Now most jobs are done by one person with more accuracy. Besides the usual surveying equipment, Island Surveying uses a one man robotic total station. We are also part of L-net, a multi-based dual constellation solution (Network RTK). This GPS system gives us a rapid fixed solution with centimeter accuracy. The system reference fame is NAD 83 and NAVD 88 datum.

Island surveying also has a 27 foot Wellcraft boat at its disposal for any open water work. It was been used in the past for the City of Key West Mooring Field and Tarpon Pier.

FIRST AMERICAN TITLE COMPANY, a national underwriter, has a branch office, at 3132 Northside Drive, Key West, Fl. Mendy Walden with over 30 years' experience is the operation manager. She has resided in Key West since 1998.

GPRS, Ground Penetrating Radar Systems, Inc. is based out of Toledo Ohio. Ron Anderson, a certified GPR technician is based out of North Lauderdale, Florida while Christopher Moore also a certified GPR technician is in Orlando, Florida.

GPRS uses the latest ground penetrating technology. All of their equipment meets all standard FCC regulations. Some of their applications are location of utilities, archaeological digs, cemetery markers, underground storage tanks concrete and more.

PHOTO SCIENCE, founded in 1974 is a full service geospatial firm, specializing in aerial imaging and data collection and processing, LiDAR acquisition and processing, photogrammetric mapping, remote sensing, GIS surveying and mobile mapping services. Photo science employs a staff of 200 at nine offices nationwide. Gary Florence and Nickolas Fusco, both are state of Florida registered surveyors are located in the Saint Petersburg office.

GARY FLORENCE, PLS, PSM, CP

Mr. Florence has more than 30 years of management experience. He is the Vice President for Photo Science's St. Petersburg operation managing more than 30 GIS and remote sensing personnel and is responsible for all GIS and remote sensing activity supporting federal, state, local government contracts and work for the private sector. Previously, Mr. Florence worked for the Southwest Florida Water Management District (SWFWMD) where he served as the Director of the Resource Data Department responsible for mapping and GIS, hydrologic data, geohydrologic data, and the ambient groundwater quality programs. He directed the construction and maintenance of a district-wide network of monitoring and production wells to determine the hydrologic characteristics of Florida's aquifers; developed a Supervisory Control Data Acquisition system to monitor hydrologic conditions; and developed projects associated with the operation and maintenance of the district-wide GIS.

Lake Okeechobee Littoral and Shore Mapping, South Florida Water Management District. Principal-in-Charge. Project included image acquisition and processing to support the delineation and classification of vegetation along Lake Okeechobee's littoral zone using soft copy photogrammetric techniques combined with extensive field verification to capture vegetation features from color infrared aerial photography.

Quality Assurance for Land Use/Land Cover, South Florida Water Management District. Principal-in-Charge. Project included the Districtwide update of land use/land cover using digital orthophoto quadrangles, aerial photography, and other ancillary data. All classifications performed according to the District's Modified FLUCCS and the photointerpretation involved extensive field work.

Pinellas County Digital Orthophotos, Southwest Florida Water Management District. Principal-in-Charge. Project Surveyor on a project to produce digital orthophotos. The project area was comprised of 5,000 ft. x 5,000 ft. cells that serve as the tiling scheme for the orthophoto deliverables. The project was approximately 2,300 square miles

completed at 1 ft. resolution. The project also required field survey to verify the horizontal accuracies.

Aerial Seagrass Mapping, Southwest Florida Water Management District. *Project Manager* for this project to create a detailed GIS dataset of benthic habitat, i.e., submerged aquatic vegetation for near shore coastal areas of the District from Tarpon Springs south to Boca Grande in 2004, 2006, 2008, 2010 and ongoing in 2012. The objective of each project is to produce two spatially and thematically accurate ArcGIS seagrass databases using airborne imagery.

Coastal Digital Imagery and LiDAR Acquisition Program, Florida Division of Emergency Management. Task Manger. Ongoing statewide initiative that involves LiDAR data collection and processing to assist in the update of current regional evacuation studies, including enhanced computer-modeling analysis on the effects of storm-surge events along Florida's Coast.

NICK FUSCO, PLS, PSM

Mr. Fusco has more than 40 years of survey-related experience and has worked in 11 U.S. Army Corps of Engineers Districts. He specializes in geodetic control using GPS techniques. He also has managerial and field experience in many types of surveying, including boundary, topographic, hydrographic, deformation, and construction surveys. His GPS experience includes providing extensive training to U.S. Army Corps of Engineers (USACE) personnel. Mr. Fusco's projects range from the implementation of large-scale geodetic control networks covering many hundreds of square miles to high-precision micro-geodetic networks for monitoring structural deformations. His background also includes the management of multi-million dollar photogrammetric mapping projects. Further, in 2009 Mr. Fusco was appointed to the Florida Board of Professional Surveyors & Mappers.

Lake Okeechobee Littoral and Shore Mapping, South Florida Water Management District. *Technical Advisor*. Photo Science was chosen to produce a spatially, thematically, and technically accurate vegetation maps of Lake Okeechobee's littoral zone using color infrared (CIR) aerial orthophotography of the lake. Photo Science mapped three geographically separate areas of the lake, i.e.: Kreamer, Torry, and Rita Islands; the emergent marsh near Henry Creek; and the emergent marsh from the Kissimmee River around the western shore of the lake to the town of Clewiston.

Aerial Seagrass Mapping from Tarpon Springs to Boca Grande, Southwest Florida Water Management District. *Technical Advisor*. Photo Science was awarded a contract to create a detailed GIS dataset of benthic habitat, i.e., submerged aquatic vegetation (SAV) for near shore coastal areas of the District from Tarpon Springs south to Boca Grande. The objective of this project is to produce two spatially and thematically accurate ArcGIS seagrass databases using airborne imagery. One SAV data set was compiled in 2004 and another SAV dataset was compiled in 2006.

ABILITY TO PERFORM SERVICES

MANAGEMENT APPROACH

Island Surveying, Inc. has worked in Key West for 37 years. We always have taken hands on attitude. Since F.H. Hildebrandt or Island Surveying has surveyed in the keys for such a long time, our company has extensive records and knowledge of the City and the Florida Keys. This saves time and money for the client. We have a commitment to give 100% on all jobs.

Island Surveying Inc. has and will approach all projects by first listening to what the client wants. To review the scope of work, first in the office and then on the site. Large projects will require numerous visits to the job site. Once the survey is finished on paper, it is reviewed on the site, to see if all is correct. Changes will be made if needed before it is handed over to the client.

Management approach to each project

- Meet with client to discuss project and cost
- Go to site, review details with client
- Provide client with cost and time
- Review property deeds and title search if deeded
- Begin field survey
- Provide, aerial, underground location and GIS if needed
- Prepared survey in office
- Review survey for any errors on site
- Review survey with client and correct any errors

**SWORN STATEMENT UNDER SECTION 287.133(3)(a)
FLORIDA STATUTES, ON PUBLIC ENTITY CRIMES**

**THIS FORM MUST BE SIGNED IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICE
AUTHORIZED TO ADMINISTER OATHS.**

1. This sworn statement is submitted with RFQ,RFP,Bid or Contract No. RFQ-12-004
for SURVEYING SERVICES

2. This sworn statement is submitted by ISLAND SURVEYING INC
(Name of entity submitting sworn statement)
whose business address is 3152 MONTHS DE DRIVE
SUITE 201, KEY WEST FL 33440 and (if applicable) its Federal
Employer Identification Number (FEIN) is 26-316-2506 (If the entity has no FEIN,
include the Social Security Number of the individual signing this sworn statement.)

3. My name is Frederick H. Hildebrandt and my relationship to
(Please print name of individual signing)
the entity named above is OWNER

4. I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States, including but not limited to, any Bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, material misrepresentation.

5. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

6. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means
 1. A predecessor or successor of a person convicted of a public entity crime: or
 2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

7. I understand that a "person" as defined in Paragraph 287.133(1)(8), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter

into a binding contract and which Bids or applies to Bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

8. Based on information and belief, the statement, which I have marked below, is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies.)

Neither the entity submitting this sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members, or agents who are active in management of the entity, nor any affiliate of the entity have been charged with and convicted of a public entity crime subsequent to July 1, 1989.

The entity submitting this sworn statement, or one or more of the officers, directors, executives, partners, shareholders, employees, members, or agents who are active in management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989, AND (Please indicate which additional statement applies.)

There has been a proceeding concerning the conviction before a hearing of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. (Please attach a copy of the final order.)

The person or affiliate was placed on the convicted vendor list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or affiliate from the convicted vendor list. (Please attach a copy of the final order.)

The person or affiliate has not been put on the convicted vendor list. (Please describe any action taken by or pending with the Department of General Services.)
