DISCUSSION

- 1 Affordable Housing Workshop - The City recognizes the need for affordable housing and has taken several steps in an effort to alleviate the affordable housing crises by; requiring affordable housing units be built with new developments, amending our Comprehensive Plan, and embarking on public private partnerships to construct new affordable units. The City will continue it's effort remedy the affordable housing cries by instituting new policy and code to incentivize well planned affordable housing units across the City. One major step to the creation and redevelopment of affordable housing is engaging with the public to understand their current housing situation, housing needs, affordable housing desires, and how the City serve to aid in the development of affordable housing. The City will continue to host several affordable housing workshops in addition to

conducting surveys and other methods of public outreach.
