A. FORMAT

The Contract Documents are divided into parts, divisions, and sections for convenient organization and reference. Generally, there has been no attempt to divide the sections into work performed by the various building trades, work by separate subcontractors, or work required for separate facilities in the project.

B. DOCUMENT INTERPRETATION

The separate sections contained within these Contract Documents are intended to be mutually cooperative and to provide all details reasonably required for the execution of the proposed work.

Should there be any doubt as to the meaning or intent of said Contract Documents, the Bidder should request of the ENGINEER, in writing (at least ten (10) calendar days prior to bid opening) an interpretation thereof. Any interpretation or change in said Contract Documents will be made only in writing in the form of Addenda to the documents which will be available to all registered holders of Contract Documents via Demand star. Bidders shall submit with their Bids, or indicate receipt of, all Addenda. The CITY will not be responsible for any other explanation or interpretations of said Documents.

2. GENERAL DESCRIPTION OF THE PROJECT

A general description of the work to be done is contained in the Invitation to Bid. The scope is specified in applicable parts of these Contract Documents.

3. QUALIFICATION OF CONTRACTORS

It shall be the Bidder's obligation to verify for himself and to his complete satisfaction all information concerning site and subsurface conditions.

The CITY will make available to prospective Bidders upon request and at the office of the ENGINEER, prior to bid opening, any information that he may have as to subsurface conditions and surface topography at the worksite.

Each Bidder shall inform himself of, and the Bidder awarded a Contract shall comply with, federal, state, and local laws, statutes, and ordinances relative to the execution of the work. REPLACEMENT AND GANGWAY REPLACEMENT
INSTRUCTIONS TO BIDDERS

Within 15 days after the award of the Contract, the CITY will return the bid securities to all Bidders whose BIDS are not to be further considered in awarding the Contract. Retained bid securities will be held until the Contract has been finally executed, after which all bid securities, other than Bidders' bonds and any guarantees, which have been forfeited, will be returned to the respective Bidders whose Bids they accompanied.

The CITY reserves the right to accept or reject any or all Bids, and to waive any informalities and irregularities in said Bids.

14. EXECUTION OF CONTRACT

The successful Bidder shall, within 10 working days after receiving Notice of Award, sign and deliver to the CITY an original Contract and two (2) copies in the form hereto attached, together with the insurance certificate as required in the Contract Documents and evidence of holding required licenses and certificates. ADDENDUM NO. 1

RAHEPF ferric sulfate tank replacement & gangway replacement ITB 22-005

This addendum is issued as supplemental information to the bid package for clarification of certain matters of both a general and a technical nature. The following addresses specific questions asked by plan holders.

Question 1: Would aluminum structural beams be acceptable as well so we can provide a bid for a complete aluminum structure?

No, please bid stainless steel structural framing as specified.

Question 2: Is the removable mid rail just the one section that is highlighted on the specs or would the entire section of railing need to be removable as well, so as to act as a gate?

A removable mid-rail is required on all four gangways. The highlighted section (aka one horizontal bar) shall be removable; the top bar and toe board are permanent. This is intended to allow for room to manually operate the gates.

Question 3: Do you know the project's estimated value?

No, there is no EOR prepared estimate for this project.

All Bidders shall acknowledge receipt and acceptance of this Addendum No. 1 with Attachment by submitting the addendum with their proposal. Proposals submitted without acknowledgement or without this Addendum may be considered non-responsive.

ADDENDUM NO. 2

RAHEPF ferric sulfate tank replacement & gangway replacement ITB 22-005

This addendum is issued as supplemental information to the bid package for clarification of certain matters of both a general and a technical nature. The following addresses specific questions asked by plan holders.

Question 1: Please confirm that the city will drain the majority of chemicals from the existing tanks and that the contractor is only responsible for minimal residual chemical removal i.e. 55 gallons or less per tank, along with cleaning the tanks before disposal.

Yes, plant staff will remove all chemicals required.

Question 2: Please confirm that the city will be providing all chemicals for this project. If the contractor is responsible for the new tank fill, please provide the city's chemical supplier including a contact name and phone number.

The city will be providing chemicals to refill the tanks. The contractor is not responsible for supplying ferric sulfate.

Question 3: Are any coatings required on this project? Bituminous paint is required where stainless steel parts contact aluminum. A corrosion protection coating required for rebar in repaired concrete sections.

Question 4: Is any electrical or instrumentation required on this project except for the lightning protecting and grounding that is noted? A new high level alarm and level monitoring system is required as shown in the project drawings.

Question 5: What is the site location address? 100 Fleming Key Rd, Key West, FL 33040

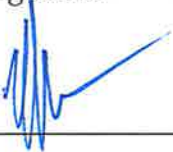

Question 6: One section of the bid package refers to a contract time of 365 days, but the contract time is specified as 270 days elsewhere. Please clarify.

The section on page 33 should be revised to read 270 days.

Question 7: The proposal form has three individual separate bid items without a grand total. It has tanks, the gangways, and a contingency. Is this project going to be awarded as a whole or on individual bid item components? Can a bid item for general conditions be added to the proposal form?

The contract will be awarded based on the bid total. Please see revised bid proposal form attached. Please use this sheet when submitting a bid. General conditions can be included in the list items at the bottom of this page.

All Bidders shall acknowledge receipt and acceptance of this Addendum No. 2 with Attachment by submitting the addendum with their proposal. Proposals submitted without acknowledgement or without this Addendum may be considered non-responsive.

ADDENDUM NO. 3

RAHEPF ferric sulfate tank replacement & gangway replacement ITB 22-005

This addendum is issued as supplemental information to the bid package for clarification of certain matters of both a general and a technical nature. The following addresses specific questions asked by plan holders.

Question 1: Per the Attachments above concerning Edwards Manufacturer, can they be considered a "same as" to the tank specified?

In general, we recommend that the plast-tank tank specified be used. This matches the current tanks and is expected to make for a smoother replacement process. However, from a structural standpoint, we do not oppose accepting an alternative tank manufacturer, provided:

- Dimensions, capacity, and required fittings are equal
- Each tank is provided with (12) 3/4" anchor locations as shown in the plans
- The tank is designed to resist applicable wind and flood loads as specified in the plans

Question 2: Our vendor is not finding the aluminum grating in I-Bar that is 19-SG-2 as specified on the drawings. Can there be a substitution? Maybe 19-SG-4?

Yes, an alternate of 19-SG-4 may be used if it is serrated.

All Bidders shall acknowledge receipt and acceptance of this Addendum No. 3 with Attachment by submitting the addendum with their proposal. Proposals submitted without acknowledgement or without this Addendum may be considered non-responsive.
