Re: Variance Application #411 Louisa Street, Key West, FL 33040

Dear Members of the Commission and Board:

Living at 410 Louisa Street, my home is immediately across the street and in full view of 411 Louisa Street. I understand that the new owners of 411 have applied for a variance permit to add a full second story to their house just beyond the current 1 ½ story and over the master bedroom. Along with other renovations and improvements, this modification will improve the building and its street appearance and bring it more in line with the character of the immediate neighborhood.

I fully support this project.

Sincerely,

Charles E. Hewett
