This application is reviewed pursuant to Section 90-391 through 90-397 of the City of Key West Land Development Regulations (LDRs). The City's LDRs can be found in the Code of Ordinances online at [http://www.municode.com/Library/FL/Key\\_West](http://www.municode.com/Library/FL/Key_West) under Subpart B.

**\*Please note, variances are reviewed as quasi-judicial hearings, and it is improper for the owner or applicant to speak to a Planning Board member or City Commissioner about the hearing.**

## Standards for Considering Variances

**Before any variance may be granted, the Planning Board and/or Board of Adjustment must find all of the following requirements are met: Please print your responses.**

1. Existence of special conditions or circumstances. That special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other land, structures, or buildings in the same zoning district.

See attachment 1.

---

---

---

2. Conditions not created by applicant. That the special conditions and circumstances do not result from the action or negligence of the applicant.

The land development code was adopted in 1986, 86 years after this area was platted.

The creation of the current land development code created the nonconforming lot depth which created the special conditions.

---

---

3. Special privileges not conferred. That granting the variance(s) requested will not confer upon the applicant any special privileges denied by the land development regulations to other lands, buildings, or structures in the same zoning district.

The variance requested will not confer special privileges but rather allow the owner to build a house closer in design to homes allowed under the code .

---

---

---

4. Hardship conditions exist. That literal interpretation of the provisions of the land development regulations would deprive the applicant of rights commonly enjoyed by other properties in this same zoning district under the terms of this ordinance and would work unnecessary and undue hardship on the applicant.

The literal interpretation of the code would create a hardship compared to rights commonly enjoyed by other properties in the same zoning district due to the applicants lot being constrained in size without a reduction in lot lines, building coverage and impervious surface due to the smaller lot.

---

---

5. Only minimum variance(s) granted. That the variance(s) granted is/are the minimum variance(s) that will make possible the reasonable use of the land, building or structure.

The proposed request is the minimum amount necessary to provide for the reasonable use of the property.

---

---

---

6. Not injurious to the public welfare. That granting of the variance(s) will be in harmony with the general intent and purpose of the land development regulations and that such variances will not be injurious to the area involved or otherwise detrimental to the public interest or welfare.

The proposed variance will be in harmony with the general intent and purpose of the land development regulation and that such variance will not be injurious to the area involved or otherwise detrimental to the public interest or welfare.

---

---

---

7. Existing nonconforming uses of other property shall not be considered as the basis for approval. That no other nonconforming use of neighboring lands, structures, or buildings in the same district, and that no other permitted use of lands, structures or buildings in other districts shall be considered grounds for the issuance of a variance.

No other non-conforming uses serves as the basis of this variance.

---

---

---

**The Planning Board and/or Board of Adjustment shall make factual findings regarding the following:**

- That the standards established in Section 90-395 have been met by the applicant for a variance.
- That the applicant has demonstrated a "good neighbor policy" by contacting or attempting to contact all noticed property owners who have objected to the variance application, and by addressing the objections expressed by these neighbors. Please describe how you have addressed the "good neighbor policy."

**REQUIRED SUBMITTALS:** *All* of the materials listed below must be submitted in order to have a complete application. Applications will not be processed until all materials are provided. Please submit one (1) paper copy of the materials to the Planning Department and one (1) electronic version in PDF format.

- ☒ Correct application fee, made payable to "City of Key West."
- ☒ Pre-application meeting form      TAB1
- ☒ Notarized verification form signed by property owner or authorized representative.      TAB 2
- ☒ Notarized authorization form signed by property owner, if applicant is not the owner.      TAB 3
- ☒ Copy of recorded warranty deed      TAB 4
- ☒ Monroe County Property record card      TAB 5
- ☒ Signed and sealed survey (Survey must be within 10 years from submittal of this application)      TAB 6
- ☒ Sign and sealed site plan (sign and sealed by an Engineer or Architect)      TAB 6

- ☒ Any additional supplemental information necessary to render a determination related to the variance request

## **ATTACHMENT 1**

The property was platted in 1900 under Plat Book 1 page 34. The Lots on this block are 49'4" in width and 92'6" in depth for a lot size of 4,563 feet. The required lot size in the Single Family district is 6,000 square feet which is typically 50' by 125'. Per Code Sec. 122-238(5) the minimum width is 50' and minimum depth is 100'. The minimum lot size forms the basis for setbacks and coverages in each district. Because the lots in this neighborhood were created before the land development code the lots are smaller both in width and more importantly in depth than lots that were created with the current code minimum lot size of 6,000 square feet. The shorter depth lot size means that it has less area to build a single family home and therefore buildable area is 42% smaller in size than a typical 6,000 sf lot. With a front setback allowed to be 20' and rear setback of 25, a 125' lot would have up to 80' of depth to develop a home. As a legally platted 92' lot, a 20' front and 25' rear setback only allows 47' to build a home. Because of this the lots in this area criteria of special circumstances.

As to impervious surface and lot coverage, both would be compliant if the lot was 6,000 sf(32.2% lot coverage under the required 35%)
