

## **Historic Architectural Review Commission Staff Report for Item 9**

To: Chairman Haven Burkee and Historic Architectural Review  
Commission Members

From: Enid Torregrosa-Silva, MSHP  
Historic Preservation Planner

Meeting Date: July 27, 2022

Applicant: Robert A. Jensen, Owner

Application Number: H2022-0030

Address: 411 Louisa Street

### **Description of Work:**

Modifications to front, side, and rear walls of an existing addition. Second-story addition at rear of property.

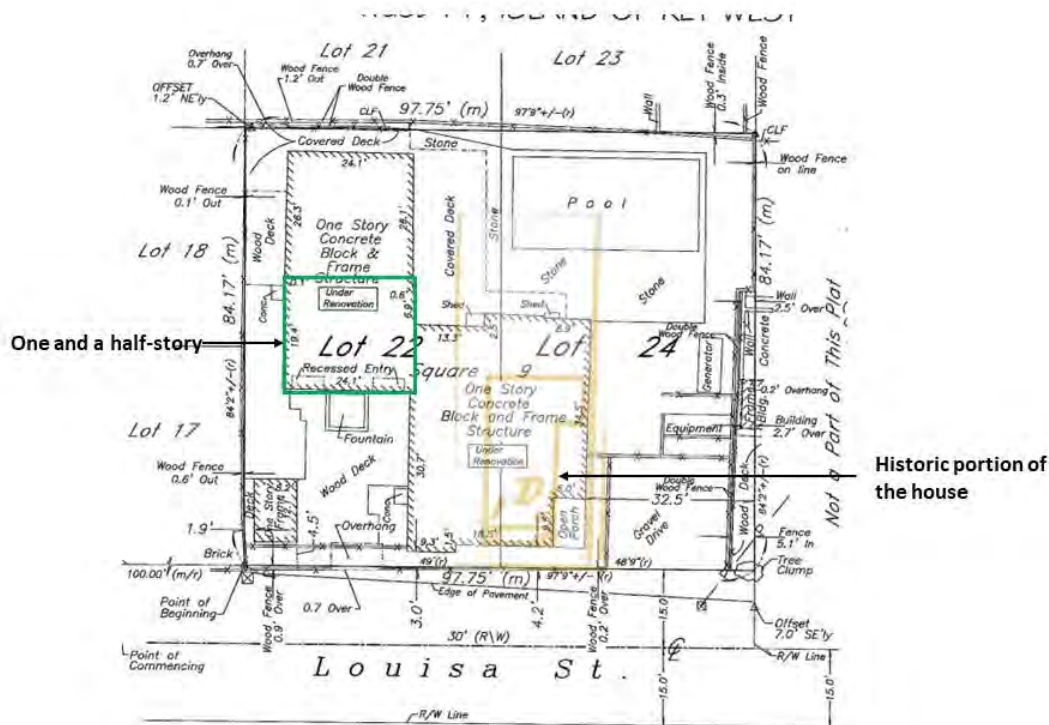

### **Site Facts:**

The site under review contains one principal house and an accessory structure located on the southwest portion of the lot. A swimming pool and decks are found behind a one-story structure. By reviewing the Sanborn maps, on the east side of the existing building there are portions of a one-story historic house. Additions to the building were done to its rear east and west side, making the historic building almost non-existing. Staff believes that the latest additions were built in late 1990's. A four feet picket fence with a gatehouse can be found in the front yard. The site has a deck in front of the one and a half-story structure.

Most of the residential complex is one-story, except for the southwest portion, which is one and a half-story. The half story is an open vaulted ceiling that includes a living room. Analyzing the urban context, the house to the west side is on a corner lot and is one and a half story non-historic structure. There are two one-story houses abutting the rear yard of the site under review; 404 Catherine Street is non-contributing, and 410 Catherine Street is a contributing resource to the historic district, build circa 1912.

On June 16, 2022, the Planning Board approved under Resolution 2022-037 variances for front, side, and rear yards setbacks as well as variances for impervious surface ratio and open space coverage. Staff approved renovations for the east portion of the house which include new windows, doors, siding/ trims repairs or replacement as needed, and rear gable roof.

Graphic depiction of 1962 Sanborn map and one and a half-story portion of the house over the site's survey.

### **Ordinance Cited on Review:**

- Section 102-217 (2), demolition for non-contributing or non-historic structures of the Land Development Regulations.

### **Staff Analysis:**

The Certificate of Appropriateness under review proposes the demolition of a non-historic rear addition and partial front walls on the first floor of the southwestern part of the existing building. The application also includes the demolition of rear and side roof overhangs attached to the rear one-story addition. The submitted plans include new treatment of first floor front elevation of the southwestern portion of the house as well as a two-story rear addition.

*Proposed demolition for non-historic portions of the house is highlighted in red.*

The Historic Architectural Review Commission shall not issue a certificate of appropriateness that would result in:

- (1) *Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.*

It is staff's opinion that the non-historic elements under consideration are not significant structures that can define the overall historic character of the neighborhood. The site has no historic structures.

- (2) *Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.*

The structures under review are not historic and their demolition will not affect any urban relationship acquired through time.

- (3) *Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.*

It is staff's opinion that the structures in question are not significant elements to the site or surrounding neighborhood.

- (4) *Removing buildings or structures that would otherwise qualify as contributing, as set forth in section 102-62(3).*

It is staff's opinion that the structures under review will not qualify to be contributing to the building or site in a near future.

Staff finds that the requested demolition of non-historic elements are in accordance with current ordinance for demolitions under the LDR's. Nevertheless, staff opines that the replacement of a one-story rear addition with a two-story structure will have an adverse effect in the surrounding and immediate adjacent properties as its mass and scale is larger than the existing structure in the site and surrounding one-story buildings. The proximity of it to the rear property line is foreign to the urban pattern found in the area with low profile structures facing rear yards. Staff finds the removal of existing entryways for the southwestern most portion of the house to follow current regulations.

*Immediate adjacent context one and a half-story vs. one story houses.*

If approved, this will be the only required reading.

Re: Variance Application # 411 Louisa Street, Key, West, FL 33040

Dear Planning Commission & Planning Board

I / We live at: 408 LOUISA STREET, KEY WEST, FL 33040

Our house is adjacent or within view of 411 Louisa Street. We understand that the new owners of this property have applied for a variance permit to add a full second story, just beyond the current 1 ½ existing story and over a master bedroom. This is along with other renovations designed to improve the building and its street appearance, bringing it in line with the neighborhood. We fully support this project.

We may be reached at:

Sincerely,

J.W. Dyer

**Re: Variance Application #411 Louisa Street, Key West, FL 33040**

Dear Members of the Commission and Board:

Living at 410 Louisa Street, my home is immediately across the street and in full view of 411 Louisa Street. I understand that the new owners of 411 have applied for a variance permit to add a full second story to their house just beyond the current 1 ½ story and over the master bedroom. Along with other renovations and improvements, this modification will improve the building and its street appearance and bring it more in line with the character of the immediate neighborhood.

I fully support this project.

Sincerely,

Charles E. Hewett
