

## **Historic Architectural Review Commission Staff Report for Item 12**

To: Chairman Haven Burkee and Historic Architectural Review  
Commission Members

From: Enid Torregrosa-Silva, MSHP  
Historic Preservation Planner

Meeting Date: July 27, 2022

Applicant: Robert Delaune, Architect

Application Number: H2022-0032

Address: 1400 Grinnell Street

### **Description of Work:**

New two-story addition. New one-story accessory structure.

### **Site Facts:**

The site under review contains one principal house that was built in 1979. The non-historic two-story house is located on the southwest corner of Grinnell and South Streets. The current carport, facing Grinnell Street and the roof deck are part of the original design. The building is the only two-story structure out of the four corner lots and immediately adjacent structures are one-story in height. The scale and mass of the house dominates all corner lots and the surrounding historic buildings. Moreover, the house and its carport with roof deck visually are out of context with the rest of the urban fabric, as there is no other structure with such mass and proportions in the surrounding lots.

On February 25, 2020, the Commission denied plans that included a two-story addition to replace the carport, renovations to the house, alterations to rear and northwest side of the house and a two-story accessory structure, among others. The new plans propose changes to those previous denied plans.

*House in 1970 while roof deck was under construction. Monroe County Library.*

### **Guidelines Cited on Review:**

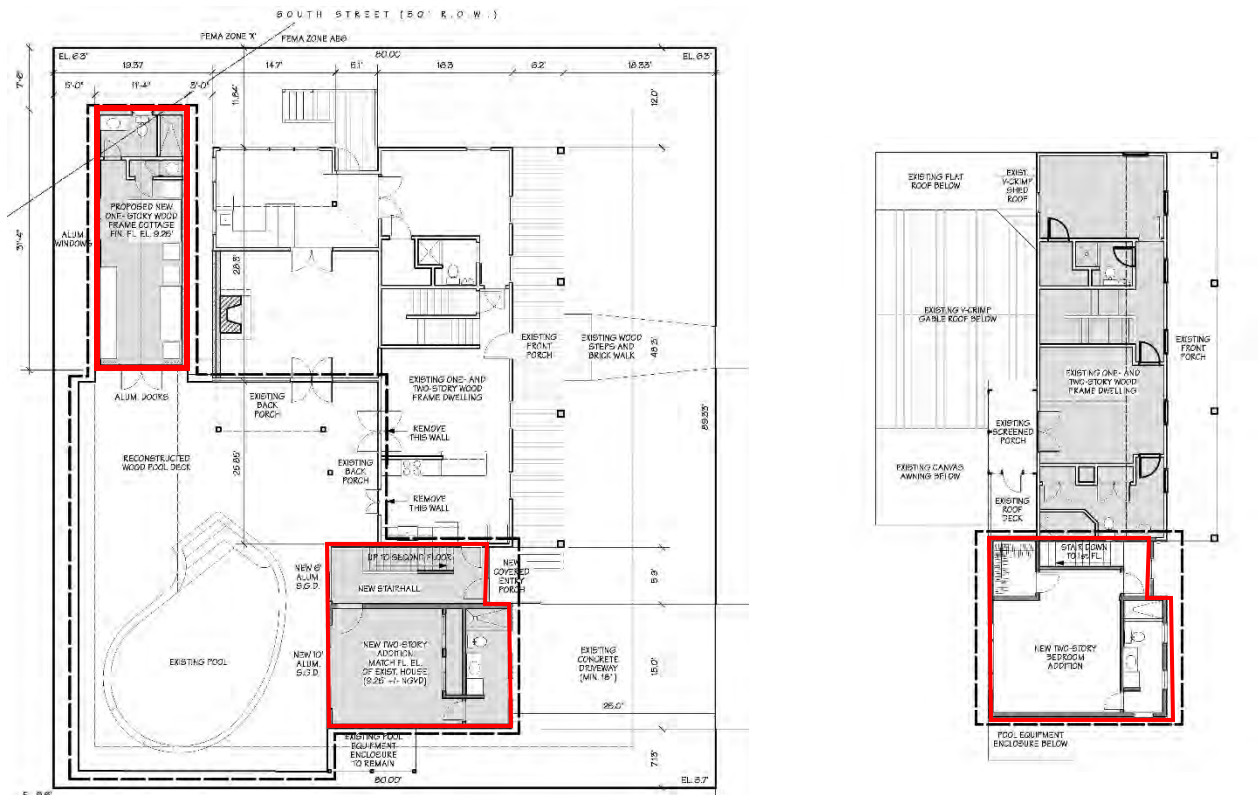

- Additions and alterations (pages 37a-37k), specifically guidelines 1, 6, 12, 13, 19, 22, and 25.
- New construction (pages 38a-38q), specifically guidelines 1, 2, 6, 11, 13, 14, 16, 17, 18, 22, 23, 24, and 25.
- Outbuildings (page 40), specifically second paragraph and guidelines 1, 4, and 9.

### **Staff Analysis:**

The Certificate of Appropriateness under review proposes the replacement of a carport with a two-story structure attached to the south elevation of the principal house. The plan also includes a one-story accessory structure, visible from South Street.

The two-story addition will have a front gable roof and a recessed two-story volume with a flat roof that will connect it to the main house. The connector will have a small one-story porch and the exterior wall will be setback from the front elevation of the principal house approximately 2'-6". The maximum height of the structure will be approximately 26'-0" from grade, a foot lower than the main house. The south elevation will have no fenestrations, while the east and west elevations will have aluminum windows. The structure will have hardi board siding and 5 v-crimp metal panels as the finish material for the roof. A graphic depicting existing front street view, the denied proposal and the new proposal is part of this report.

In addition, the design includes a one-story accessory structure located on the rear yard and facing South Street. The structure will be elevated over concrete piers and will be approximately 7 feet setback from the property line; 5 feet closer to the South Street property line than the principal house, which is 12 feet setback from the street side boundary. Maximum height from grade will be +16 feet. The structure will have a front gable roof and a window will be the only fenestration facing the street. Aluminum windows and doors, hardie siding and 5 v-crimp will be the exterior materials used to finish the structure.

*First floor and second floor plans with highlighted additions.*

### **Consistency with Cited Guidelines:**

It is staff's opinion that the proposed design fails many of the cited guidelines. The scale and massing of the existing building is foreign to its urban context and adding more massing to an existing large building is contrary to the guidelines. It is staff's opinion that the proposed two-story addition will make this building more out of scale than what it is today. Staff also finds that the accessory structure does not meet cited guidelines for new construction. The accessory structure, which will be 7 feet setback from the street side property line, will have a maximum height of +16 feet, and will become a prominent structure within the street. Accessory structures should be complementary and secondary structures to the existing streetscape. Staff finds that the width, depth, and height of the building are too large for the area on the site where it is proposed, and

there is minimum space (3 feet) between the new proposed 16 feet tall structure and the principal two-story 27 feet tall building. Staff has reviewed the proposal with the understanding that new construction must meet flood regulations requirements, but there are ways to lower the height of a structure without compromise appropriateness.

## DETAILED PROJECT DESCRIPTION OF DEMOLITION

DEMOLISH ATTACHED CARPORT W/ ROOFTOP DECK @ GRINNELL STREET;  
DEMOLISH SMALL ATTACHED SHED IN REAR YARD.

## CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

**THE SUBJECT STRUCTURE IS NOT A CONTRIBUTING OR HISTORIC STRUCTURE**

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

**THE STRUCTURE WAS BUILT AROUND 1980**

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

**IT IS NOT**

(c) Has no significant character, interest, or value as part fo the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

**IT DOES NOT**

(d) Is not the site of a historic event with significant effect upon society.

**IT IS NOT**

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

**IT DOES NOT**

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

**IT DOES NOT**

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

**IT IS NOT**

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

## IT DOES NOT

(i) Has not yielded, and is not likely to yield, information important in history.

**IT HAS NOT AND IS NOT LIKELY TO DO SO**

**CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:**

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies);

(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

**THE PORTIONS OF THE STRUCTURE SLATED FOR DEMOLITION ARE NOT IMPORTANT TO THE OVERALL HISTORIC CHARACTER OF THE DISTRICT OR THE NEIGHBORHOOD**

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

**NO HISTORIC STRUCTURES ARE SLATED FOR DEMOLITION**

(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

**NO SUCH REMOVAL IS PROPOSED**

(4) Removing buildings or structures that would otherwise qualify as contributing.

**NO SUCH REMOVAL IS PROPOSED**
