Designed to Future Flood Maps

39% Open Space

Trumbo Road Elevation

Trumbo Road Elevation

1/16" = 1' - 0"

Elevations

Residential Building

Nonresidential Building

Amendment to Conditions of Approval

~~3. An ADA compliant five foot sidewalk is required adjacent to the Trumbo Road right of way and must tie into the existing grid with ADA connections across any driveway.~~

Rationale for Deletion: It is important to keep in mind this is an affordable housing project, there is no budget available for wishful development proffers. Sec. 107-28 requires: sidewalk connection between parking, principal structures and adjacent activity areas. The proposed plans comply with this requirement. Installation of public sidewalks along Trumbo Road is not a requirement of code.
