

Labor, \$1400

Materials \$400

Graffiti protector \$200

Already permitted project. Total request, \$2000.

My name is Leda Andrews and I own the antiques store at the corner of Thomas & Petronia Sts, 227 Petronia.

About 11 years ago I commissioned Rick Worth to paint a mural on the side of the building after repairs to the wall ruined the original mural. We collaborated on the idea and it's a reflection of the life and people of Bahama Village

All are real Key West characters of the past and present.

It's very faded now after all these years in the sun. I'd like to apply for Art in Public Places funds to have Rick refurbish it. I originally financed it by having a small flea market next to my shop.

This is no longer an option.

It's a very popular spot for tourists and locals to take photos and I think it reflects beautifully on our island.

My request for funds is \$2000. Let me know if you need any other information or have any questions. I'm including a few photos. Before and after fading.
