

Historic Architectural Review Commission Staff Report for Item 6

To: Chairman Haven Burkee and Historic Architectural Review Commission Members

From: Enid Torregrosa-Silva, MSHP
Historic Preservation Planner

Meeting Date: November 29, 2022

Applicant: T.S. Neal, Architect

Application Number: H2022-0044

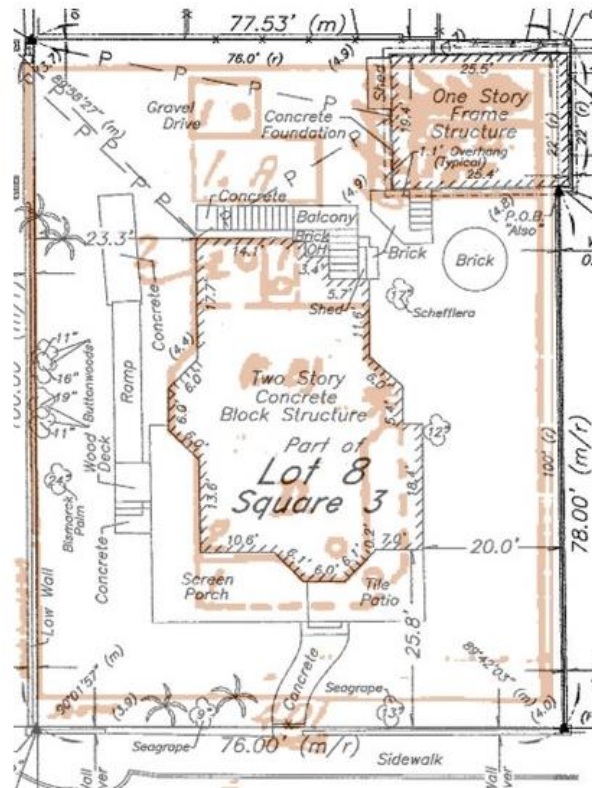

Address: 401 South Street

Description of Work:

Partial demolition of altered wrap porch. Demolition of ~~rear staircase and~~ accessory structure.
Partial demolition of cistern.

Site Facts:

The property under review sits on the northeast corner of South and Whitehead Streets. The principal house is one of three contiguous sister structures facing South Street. During the 1920's the property served as the Cuban Consul's residence. The site comprises of two structures the primary house and an accessory structure build over a cistern and located on the northeast corner of the lot. The main house is a contributing resource to the district. Built circa 1910 the two-story Queen Anne revival building has undergone several changes through time, including the removal of original round columns, alterations, and enclosures to the wrap porch and second floor front porch, as well as side and rear additions. A rear staircase and a ramp are of latter addition. The current one-story accessory structure was built around 1968. The applicant has met with the urban forester manager and reviewed the submitted plans. The property is located on a VE flood zone.

Current survey and 1962 Sanborn Map over imposed.

Ordinance Cited on Review:

- Section 102-217 (3), demolition for contributing and historic structures of the Land Development Regulations for all porch elements.

Staff Analysis:

On October 26, 2022, the Commission motioned to approve submitted plans for demolition. This report is for the required second reading for demolition of the partial demolition of the current altered wrap porch, the removal of columns and knee walls, louvered enclosure, all non-original to the house but historic, as they were built more than fifty years ago. The plan also includes the demolition of a historic accessory structure and partial demolition of a historic cistern. The cistern has been compromised by the construction of the accessory structure over it. The north wall of the cistern will be kept in place as it serves as a retaining wall from the adjacent development. Submitted plans include replacements where proposed.

It is staff's opinion that the request for the partial demolition of the front wrap porch and cistern, and accessory structure shall be reviewed based on the demolition criteria of Chapter 102 Section 218 (a) of the LDR's. The criteria state the following.

(a) The historic architectural review commission shall issue a certificate of appropriateness for an application for demolition:

- (1) *If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the criteria of section 102-125(1) through (9).*

It is staff's opinion that the existing structures under review are not irrevocably compromised by extreme deterioration.

The following is the criteria of section 102-125:

- 1 *Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction;*

Staff opines that the current non-original wrap porch diminishes the distinctive characteristics of the house. Staff also finds that the accessory structure and cistern lack individual distinction and are not significant to the site and neighborhood.

- 2 *Is not specifically associated with events that have made a significant contribution to local, state, or national history;*

Although the house was once the residence of a Cuban consul the wrap porch and accessory structure under review were built after this historic event.

- 3 *Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state, or nation, and is not associated with the life of a person significant in the past;*

The structures under review are of no significant value to the development, heritage, or cultural record of the city. Materials used for the wrap porch and the design of current knee wall are not based on the original design of the house.

- 4 *Is not the site of a historic event with a significant effect upon society;*

Although the house was once the residence of a Cuban consul the structures under review, except for the cistern, were not in place at that time in history.

- 5 *Does not exemplify the cultural, political, economic, social, or historic heritage of the city;*

The structures under review do not exemplify social, cultural, or historic heritage of the city.

- 6 *Does not portray the environment in an era of history characterized by a distinctive architectural style;*

The structures under review cannot be considered fine example of a distinctive architectural style, moreover when the current wrap porch is foreign to the original design of the house.

- 7 *If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif;*

This is not the case.

- 8 *Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and*

The property under review is located on a prominent corner within the historic district. The structures under review do not exemplify a remaining architectural type in its neighborhood and does not possess any significant visual features.

- 9 *Has not yielded, and is not likely to yield, information important in history.*

The structures under review do not yield important information in history.

In conclusion, it is staff's opinion that the request for partial demolition of wrap porch and cistern, can be considered by the Commission as they meet the criteria for demolition stated under the Land Development Regulations. If approved, this will be the last of two required readings.

DETAILED PROJECT DESCRIPTION OF DEMOLITION

Main house - To demo existing front screen porch & low concrete walls at porch sides. Rear stairs & added wood frame exterior walls at rear.
Accessory Structure - Demo existing guest house which sits on existing cistern. To remove top and half of cistern walls.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

The cistern is historic but lacks aesthetic or historic significance.

SEP 30 2022
BY:

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

Cistern is not associated with contributing events

(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

Cistern has no character or interest.

(d) Is not the site of a historic event with significant effect upon society.

No

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

No

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

No

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

N/A

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

N/A

(I) Has not yielded, and is not likely to yield, information important in history.

No

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies);

(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

The parts that are being removed contributed to diminishing the historic architectural characteristics of the property

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

Does not result in destroying the historic relationship which we are trying to restore with this project.

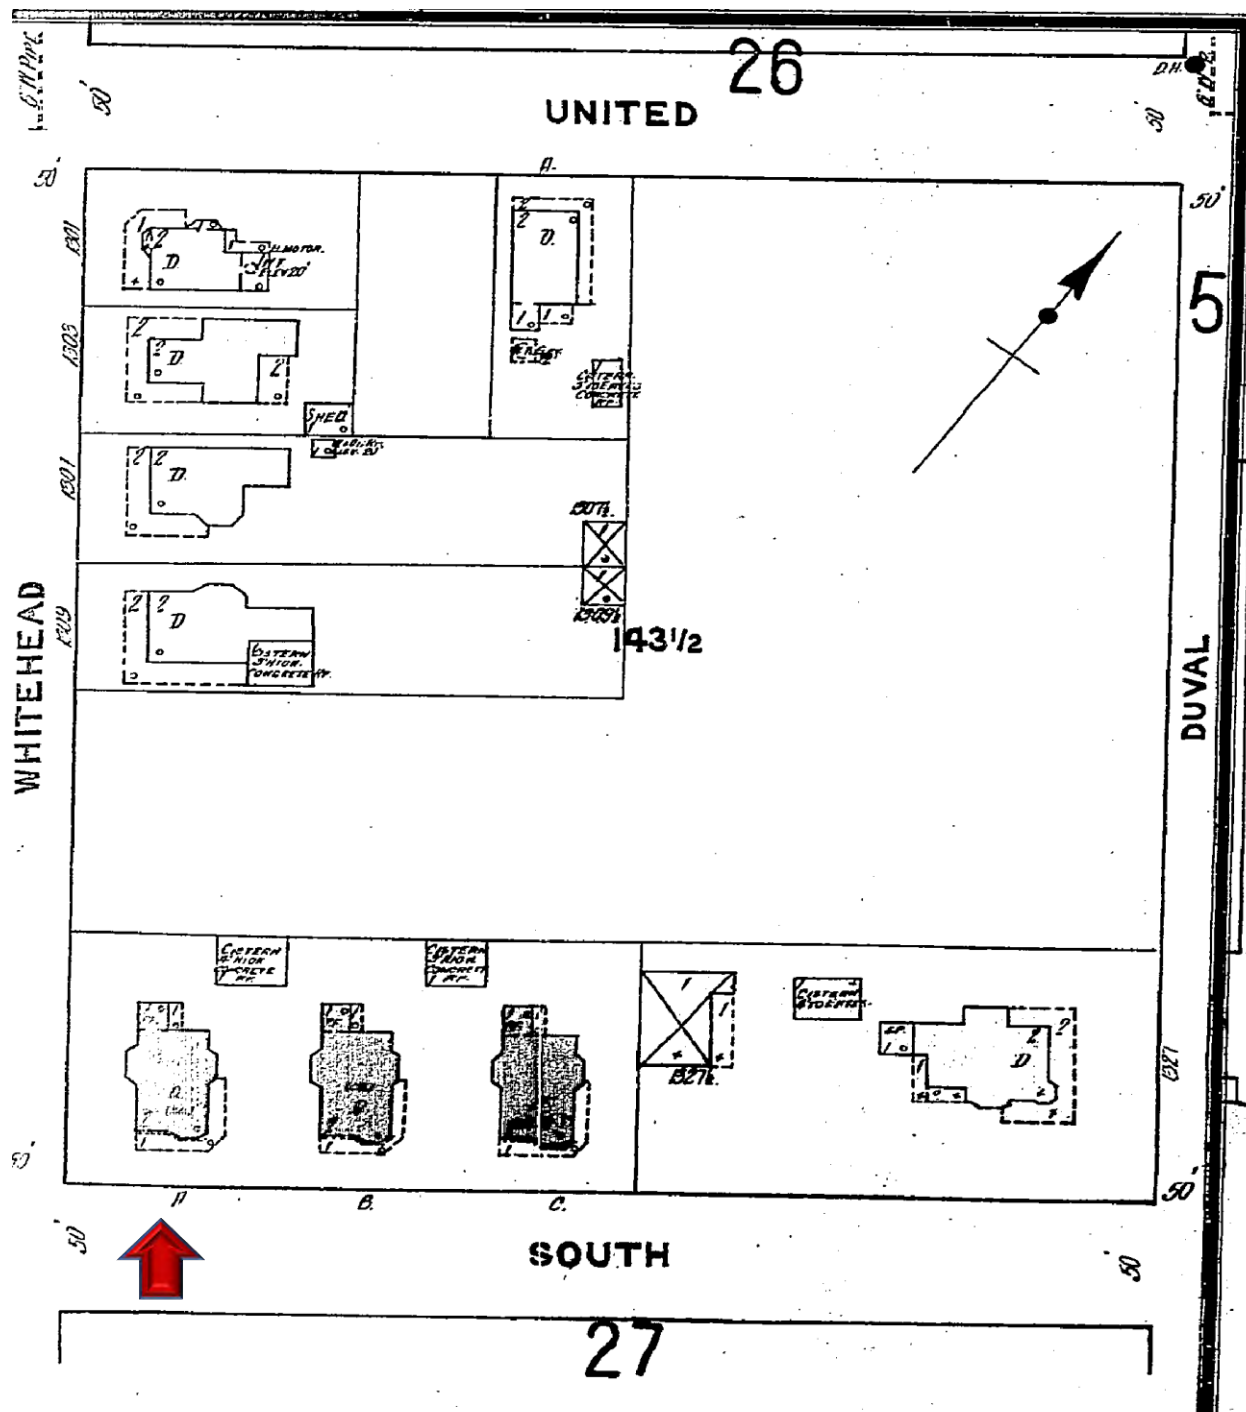

(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

No

(4) Removing buildings or structures that would otherwise qualify as contributing.

No

T1.1
SHEET #

T S N

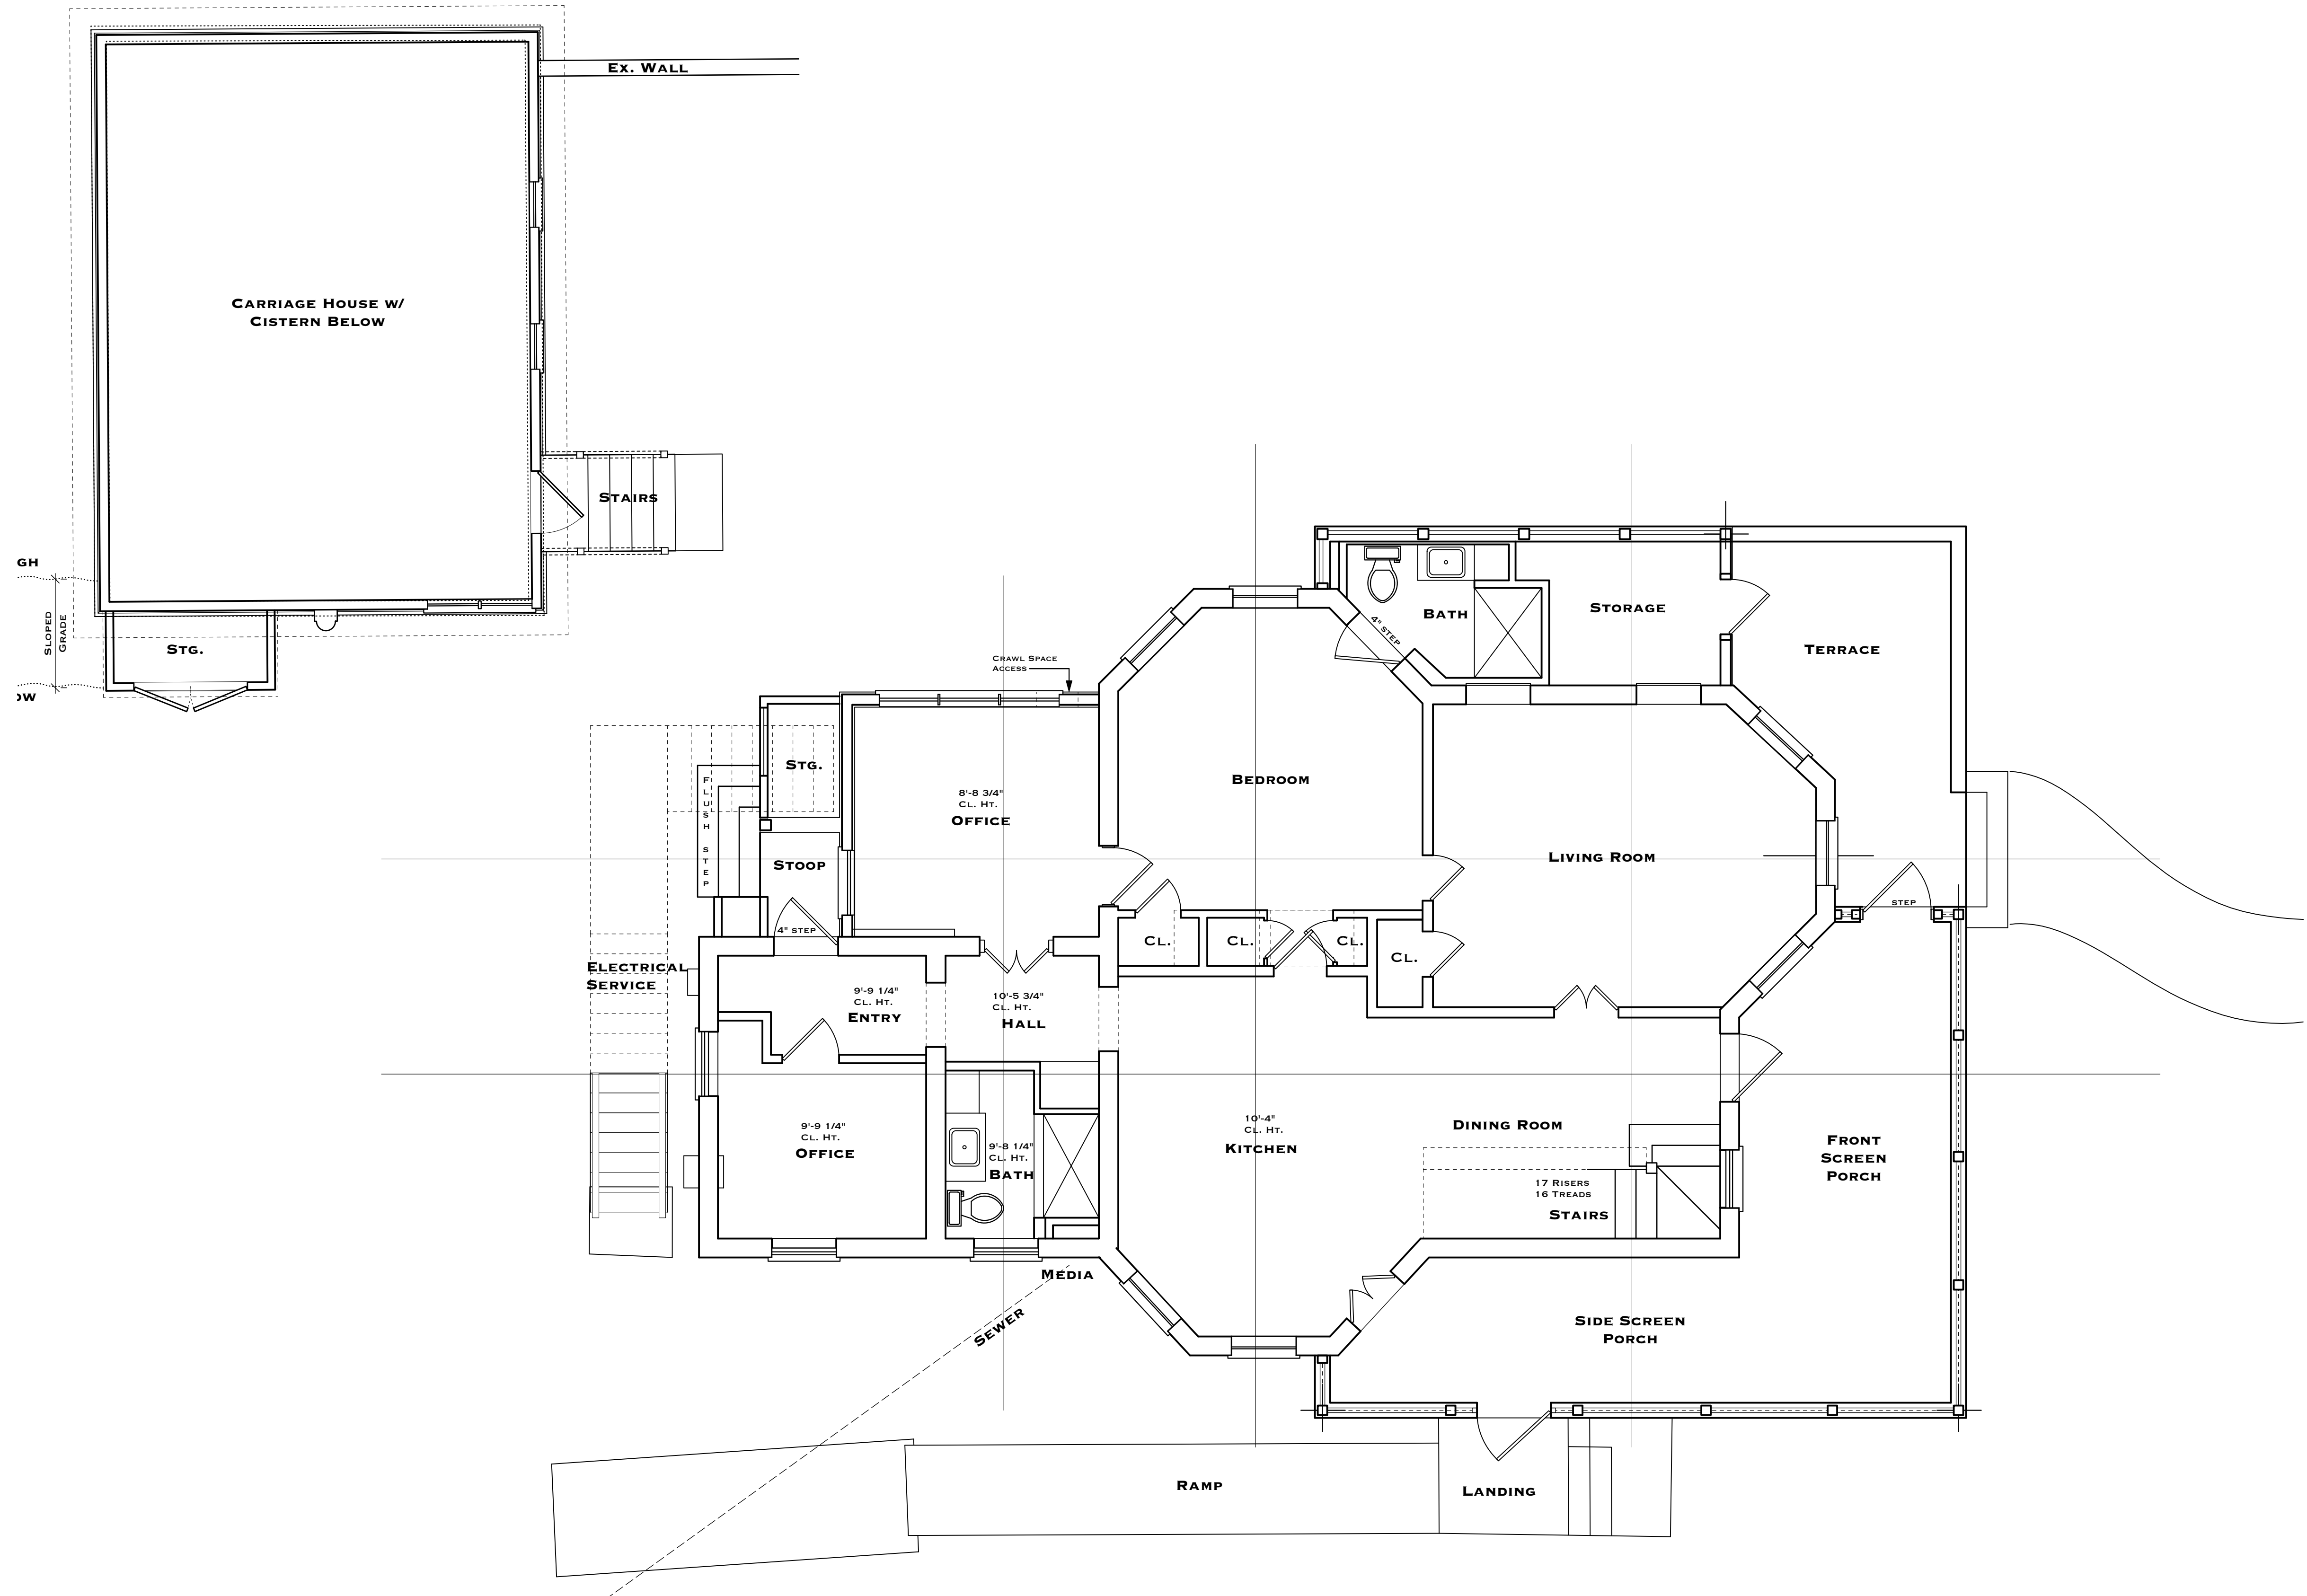

T. S. NEAL ARCHITECTS, INC.

1. PROTECT DESIGNATED EXISTING TREES SCHEDULED TO REMAIN AGAINST:
 - UNNECESSARY CUTTING, BREAKING, OR SKINNING OF ROOTS
 - SKINNING AND BRUISES TO TRUNKS
 - SMOTHERING OF TREES BY STOCKPILING CONSTRUCTION OR EXCAVATION MATERIALS WITHIN PROTECTION BARRICADE
2. PROTECT BARRICADES (TREE BARRICADES) SHALL BE PLAINLY VISIBLE AND SHALL CREATE A CONTINUOUS BOUNDARY AROUND TREES OR VEGETATION CLUSTERS IN ORDER TO PREVENT ENCROACHMENT WITHIN THE BARRICADE.
3. FOR ALL TREES TO BE PRESERVED, SEE TREE PROTECTION AND BARRICADE ELEVATION DETAIL.
4. NO GRADE CHANGES SHALL BE MADE WITHIN THE PROTECTIVE BARRIER ZONES WITHOUT PRIOR APPROVAL.
5. THE METHOD OF PROTECTION IS TO MAKE CERTAIN THAT 50% OF THE AREA UNDER THE CANOPY DRIPLINE REMAINS UNDISTURBED (NO GRADE CHANGE OR ROOT CUT) AND THERE SHALL BE NO DISTURBANCE TO THE ROOT PLATE.
6. GENERAL CONTRACTOR SHALL BE RESPONSIBLE FOR THE REPLACEMENT AND MITIGATION COSTS OF TREES DAMAGED BEYOND REPAIR THAT HAVE BEEN IDENTIFIED AS PROTECTED AND PRESERVED. IF TREES ARE HARMED BEYOND REPAIR DUE TO PROTECTION OR THROUGH NEGLIGENCE ON THE PART OF THE CONTRACTOR, THE CONTRACTOR SHALL BEAR THE BURDEN OF THE COST OF REPAIR OR REPLACEMENT.
7. ROOT PRUNING SHALL BE DONE BY OR UNDER SUPERVISION OF AN ISA CERTIFIED ARBORIST, AND MEET OR EXCEED ANSI A300 OR APPROVED TREE CARE INDUSTRY STANDARDS. A CERTIFIED ARBORIST MUST BE ONSITE DURING THE ENTIRETY OF THE ROOT PRUNING.
8. NO ROOT PRUNING SHALL BE DONE WITHIN A DISTANCE OF 3X THE DIAMETER THE TREE UNLESS AUTHORIZED BY THE ARBORIST.
9. NO MORE THAN 30% OF THE TREES ROOTS MAY BE PRUNED.
