

Historic Architectural Review Commission Staff Report for Item 15

To: Chairman Haven Burkee and Historic Architectural Review
Commission Members

From: Enid Torregrosa-Silva, MSHP
Historic Preservation Planner

Meeting Date: November 29, 2022

Applicant: Robert Delaune, Architect

Application Number: H2022-0049

Address: 910 United Street

Description of Work:

Demolition of non-historic carport.

Site Facts:

The principal building in the site is listed as a contributing resource to the district. The one and a half-story frame vernacular house was built circa 1910. The double lot sits on the southeast corner of Elizabeth and Olivia Streets. The south portion of the lot has never been developed except for the current carport build in the 1990's. Dense vegetation shields the carport and south elevation of the house from street view.

Aerial photograph of the site under review showing the non-historic carport.

Ordinance Cited on Review:

- Section 102-217 (2), demolition for non-contributing or non-historic structures of the Land Development Regulations.

Staff Analysis:

The Certificate of Appropriateness under review proposes the demolition of a non-historic carport. The submitted plans do not include a new carport but proposes a new pool cabana.

The Land Development regulations establishes specific criteria to review demolition of non-historic structures. The Historic Architectural Review Commission shall not issue a certificate of appropriateness that would result in:

- (1) *Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.*

The existing carport does not define the overall historic character of the neighborhood; therefore, its demolition will not impair the integrity of the streetscape.

- (2) *Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.*

The structure under review is not historic and its demolition will not destroy any relationship between the structure and adjacent historic houses.

- (3) *Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.*

It is staff's opinion that the structure under review is not a significant streetscape addition that defines the historic character of the neighborhood.

- (4) *Removing buildings or structures that would otherwise qualify as contributing, as set forth in section 102-62(3).*

It is staff's opinion that the carport will not qualify to be listed as a contributing resource in a near future.

Staff finds that the requested demolition of the non-historic carport is consistent with the ordinance for demolitions under the LDR's. If approved this will be the only required reading for demolition.
