**Application Fee: \$2,415.00 / After-the-Fact: \$4,515.00**

(includes \$210.00 advertising/noticing fee and \$105.00 fire review fee)

**Please read the following carefully before filling out the application**

This application and all required attachments should be submitted to the  
City Planning Department at 1300 White Street.

- Owners and applicants are notified of their scheduled Planning Board hearing date.
- Attendance at the formal public hearing is mandatory.
- Notice of Public Meeting is published in the newspaper.
- Owners of property within 300 feet of the subject property or parcels are notified by mail.
- Notice of public hearing will be posted on the property and must be left up until after the hearing.
- Variances are quasi-judicial hearings and it is improper to speak to a Planning Board and/or Board of Adjustment member about the variance outside of the hearing.

## **Application Process**

- Prior to submittal, the applicant will schedule a pre-application meeting with staff to review the application and suggest any modifications that may be necessary before submittal. A pre-application meeting is free of charge and should be the final step before submittal. To schedule a pre-application meeting, please call the Planning Department at (305) 809-3764.
- After submittal, the application will be reviewed by staff and additional modifications to the site plan may be necessary at that time. Any modifications within eight (8) days of the scheduled Planning Board meeting may result in the item being postponed till the following Planning Board meeting.
- The applicant will be responsible for submitting a landscape approval letter from the Urban Forestry Program Manager and a Stormwater approval letter from the Director of Engineering.
- **When the application is determined to be complete**, it will be brought forth to the Planning Board. If the application is approved, there is a 10-day appeal period.
- After the 10-day appeal period, the application will be sent to the Department of Environmental Opportunity (DEO) for rendering. The rendering period is 45 days.

**Please include the following with this application:**

1. A copy of the most recent warranty deed with the Book and Page numbers from the office of the Clerk of Circuit Court for Monroe County containing a legal description of the subject parcel. The application forms must be signed by all owners listed on the deed. For business/corporate ownership, please attach authorization for name of executive authorized to make the application.
2. An application fee is determined according to the attached fee schedule. Make the check payable to the City of Key West and include the site address on the memo portion of the check. Be advised that upon review by the Planning Department, additional or fewer variances may be required necessitating a different fee.
3. Sign and Sealed site plan(s) of the subject site, indicating the following:
  - a. **Existing and proposed** lot coverage including buildings, pools, spas, driveways and other walkways, patios, porches, covered areas and decks.
  - b. Location and identification/names of existing trees of 3.5 inches diameter or greater on the property or extending over the proposed work (including access routes and stormwater areas). Please provide photos.
  - c. All proposed changes to what exist, including those which make the variance(s) necessary.
  - d. Lot dimensions on all drawings and the distance from all property lines of all existing and proposed structures.
  - e. Dimensions **(existing and proposed)** of all the items in (a) above, including the height and number of stories of the structure.
  - f. Parking spaces and dimensions **(existing and proposed)**.
  - g. Easements or other encumbrances on the property.
4. A survey of the property no more than ten years old
5. Elevation drawings or proposed structures, indicating finished height above established grade as measured from crown of road
6. Floor Plans of existing and proposed development
7. Stormwater management plan
8. PDF version of application and all required materials submitted to the Planning Department

The attached Verification and Authorization Forms must be notarized. This can be done at City Hall or the Planning Department. Identification is required. An out-of-state notarization is acceptable, if necessary.

**Make sure that the applicable application and authorization forms are signed by all people listed as owners on the recorded Warranty Deed.**

Be advised that the City will not grant a variance unless the City Impact Fees of sewer and solid waste services are paid in full.

For assistance please call the Planning Department at (305) 809-3764.

## **Variance Criteria**

### **10 Lowe Lane**

1. Existence of special conditions or circumstances. That special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other land, structures, or buildings in the same zoning district.
  - a. The Property is located on a small (50' x 50') lot within the city's historic residential neighborhood. The historic nature of the property creates special conditions that make it difficult to adapt a home that was built prior to building and land development codes to today's standards and accommodate family needs.
2. Conditions not created by applicant. That the special conditions and circumstances do not result from the action or negligence of the applicant.
  - a. The Applicant did not create the existing layout of the property. This small, 50' x 50' parcel was legally established by 1967. The Applicant is mindful of their neighbors and the historic context of the surrounding area and making conscientious, minor improvements where possible.
3. Special privileges not conferred. That granting the variance requested will not confer upon the applicant any special privileges denied by the land development regulations to other lands, buildings or structures in the same zoning district.
  - a. Special privileges are not conferred. The granting of the variance requested will not confer any special privileges upon the Applicant. The design and siting of the house is representative of what existed previously as well as being sensitive to the surrounding historic fabric.
4. Hardship conditions exist. That literal interpretation of the provisions of the land development regulations would deprive the applicant of rights commonly enjoyed by other properties in this same zoning district under the terms of this ordinance and would work unnecessary and undue hardship on the applicant.
  - a. The hardship faced by the Applicant is making modifications sensitive to a non-complying historic structure on a legal nonconforming lot. This lot is below the minimum lot size required by the LDRs, and has non-complying front, side and rear setbacks. Modifications are being made to improve the structure without increasing the building footprint.

5. Only minimum variance granted. That the variance granted is the minimum variance that will make possible the reasonable use of the land, building, or structure.
  - a. The variance requested is the minimum variance that will make possible the continued use of the land, building, or structure. The proposed variance would allow the return of an open front porch which will decrease the encroachment into the front setback. The slight enlargement of the dormer and conversion of the carport will allow for adequate living space that was partially lost with the opening of the front porch.
6. Not injurious to the public welfare. That granting of the variance will be in harmony with the general intent and purpose of the land development regulations and that such variances will not be injurious to the area involved or otherwise detrimental to the public interest or welfare.
  - a. The granting of the variance does not appear to be injurious to the area involved or detrimental to the public interest. Modifications will be more consistent with the historic context of the neighborhood. All exterior changes will be HARC approved and designed to be sympathetic and compatible to the surrounding historic neighborhood.
7. Existing nonconforming uses of other property shall not be considered as the basis for approval. That no other nonconforming uses of neighboring lands, structures, or buildings in the same district and that no other permitted use of lands, structures or buildings in other districts shall be considered grounds for the issuance of a variance.
  - a. The Applicant did not consider other nonconforming uses of other property in developing this application.

Will any work be within the dripline (canopy) of any tree on or off the property?  
If yes, provide date of landscape approval, and attach a copy of such approval.

## Standards for Considering Variances

**Before any variance may be granted, the Planning Board and/or Board of Adjustment must find all of the following requirements are met: Please print your responses.**

1. Existence of special conditions or circumstances. That special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other land, structures or buildings in the same zoning district.

Existing building was constructed within 3 setbacks on a very small plot of land. Later the front porch was enclosed

---

And a carport shed roof was added also partially within a front and rear setbacks. Now require improvements.

---

Special conditions exist since it is a historic property and was build without observing the setback requirements non existent at the time of construction.

---

2. Conditions not created by applicant. That the special conditions and circumstances do not result from the action or negligence of the applicant.

Building was constructed in 1933 with later alterations and modifications.

---

Current owner purchased the property in 2022 and have not caused current conditions. Special condition and circumstances do not result from the action or negligence of the applicant.

---

3. Special privileges not conferred. That granting the variance(s) requested will not confer upon the applicant any special privileges denied by the land development regulations to other lands, buildings or structures in the same zoning district.

Granting of the requested variances will not confer any special privileges to the applicant. Similar conditions are found within the neighborhood and very few(if any) properties comply with existing applicable zoning code due to historic nature of the development.

---

4. Hardship conditions exist. That literal interpretation of the provisions of the land development regulations would deprive the applicant of rights commonly enjoyed by other properties in this same zoning district under the terms of this ordinance and would work unnecessary and undue hardship on the applicant.

The current property does not comply with existing applicable zoning code requirements.

---

Hardship exists since the owner is trying to improve and preserve the historic property otherwise is in state of neglect and reopen and front porch, remove inappropriate shed style carport and add a proportionally sized side addition.

---

5. Only minimum variance(s) granted. That the variance(s) granted is/are the minimum variance(s) that will make possible the reasonable use of the land, building or structure.

Only minimum variances are being requested. Existing setbacks remain same with improvements the variance is triggered by the vertical increase of nonconformity within the existing structure footprint for appropriate shape roof structure. Building coverage, Impervious Area and open space are all improving together with a total reduction of the roof footprint.

---

6. Not injurious to the public welfare. That granting of the variance(s) will be in harmony with the general intent and purpose of the land development regulations and that such variances will not be injurious to the area involved or otherwise detrimental to the public interest or welfare.

There are no apparent injurious to the public welfare. In contrast, the variances are consistent with the intended land use and improve the owner's quality of life. Properties around the area reside under similar conditions

7. Existing nonconforming uses of other property shall not be considered as the basis for approval. That no other nonconforming use of neighboring lands, structures, or buildings in the same district, and that no other permitted use of lands, structures or buildings in other districts shall be considered grounds for the issuance of a variance.

Existing non-conforming uses of the property (if any) do not present any effects on this variance application.

**The Planning Board and/or Board of Adjustment shall make factual findings regarding the following:**

- That the standards established in Section 90-395 have been met by the applicant for a variance.
- That the applicant has demonstrated a "good neighbor policy" by contacting or attempting to contact all noticed property owners who have objected to the variance application, and by addressing the objections expressed by these neighbors. Please describe how you have addressed the "good neighbor policy."
