DATE: September 2, 2021
RE: 2021 Port Security Grant Program (PSGP) EMW-2021-PU-00389-S01 award package

Action Statement:

The Key West Police Department (KWPD) is seeking Commission authorization to accept the attached award package for Grant No. EMW-2021-PU-00389-S01 from the 2021 Port Security Grant Program (PSGP) funded by the Department of Homeland Security (DHS) / Federal Emergency Management Agency (FEMA) with a Federal award amount of \$165,000 for two boat lifts for Police and Fire located across the street from both stations on N. Roosevelt Blvd. and boat refurbishment of KWPD's 21-year-old 27-foot Safeboat.

Background:

Key West is included as a port of call on international cruises increasing its vulnerability as a hub for transit, as well as a final destination. Ferries are more vulnerable to improvised explosive device (IED) because their hulls are less robust than cruise ships. The Key West Police and Fire Departments take Chemical Biological Radiological Nuclear and Explosive (CBRNE) and IED threats seriously. In May 2021, the KWPD submitted a PSGP grant application to request funding for two boat lifts and boat refurbishment in the amount of \$220,000.00 (\$165,000.00 Federal share, \$55,000.00 City match).

Purpose and Justification:

Access to the Police and Fire boats is critical to adequately prevent, detect, respond to, and recover from IED and CBRNE incidents. The boat lifts will allow both the Fire and Police departments to access their boats and operate them on water more quickly and efficiently, improving their response rate to threats. Also critical is having a boat that is suitable with warranted functionality that allows KWPD to remain in compliance with the requirements set forth by the Maritime Transportation Security Act (MTSA)/US Coast Guard as outlined in their Facility Security Plan. A refurbished boat ensures KWPD meets the minimum requirement of having three (3) fully functional, modern law enforcement boats by extending usable life by another decade.

Financial Impact:

Grant revenue of \$165,000.00 will be budgeted in Account 0010000 3312000 (General Fund/Revenue/Public Safety) in FY 2021-2022. Expenses, based on the anticipated project cost of \$220,000.00 (which includes the City's 25% match of \$55,000.00), will be budgeted in Account 0012104 5216400 (General Fund/Law Enforcement Grants/Machinery & Equipment).

Recommendation:

We recommend the City Commission authorize the acceptance of the grant award package.

Before making any change to the FEMA approved budget for this award, you must request prior written approval from FEMA where required by 2 C.F.R. section 200.308. FEMA is also utilizing its discretion to impose an additional restriction under 2 C.F.R. section 200.308(f) regarding the transfer of funds among direct cost categories, programs, functions, or activities. Therefore, for awards with an approved budget where the federal share is greater than the simplified acquisition threshold (currently \$250,000), you may not transfer funds among direct cost categories, programs, functions, or activities without prior written approval from FEMA where the cumulative amount of such transfers exceeds or is expected to exceed ten percent (10%) of the total budget FEMA last approved. You must report any deviations from your FEMA approved budget in the first Federal Financial Report (SF-425) you submit following any budget deviation, regardless of whether the budget deviation requires prior written approval.

Article XLII - Disposition of Equipment Acquired Under the Federal Award

When original or replacement equipment acquired under this award by the recipient or its subrecipients is no longer needed for the original project or program or for other activities currently or previously supported by a federal awarding agency, you must request instructions from FEMA to make proper disposition of the equipment pursuant to 2 C.F.R. section 200.313.

Article XLIII - Port Security Grant Program Performance Goal

In addition to the Performance Progress Report (PPR) submission requirements outlined in the Preparedness Grants Manual, recipients must demonstrate how the grant-funded project addressed the capability gaps identified in their vulnerability assessment or other relevant documentation or sustains existing capabilities per the FEMA-approved Investment Justification. The capability gap reduction or capability sustainment must be addressed in the PPR, Section 10. Performance Narrative.

Article XLIV - Acceptance of Post Award Changes

In the event FEMA determines that changes are necessary to the award document after an award has been made, including changes to period of performance or terms and conditions, recipients will be notified of the changes in writing. Once notification has been made, any subsequent request for funds will indicate recipient acceptance of the changes to the

award. Please call the FEMA/GMD Call Center at (866) 927-5646 or via e-mail to ASK-GMD@fema.dhs.gov if you have any questions.

Article XLV - Applicability of DHS Standard Terms and Conditions to Tribes

The DHS Standard Terms and Conditions are a restatement of general requirements imposed upon recipients and flow down to subrecipients as a matter of law, regulation, or executive order. If the requirement does not apply to Indian tribes or there is a federal law or regulation exempting its application to Indian tribes, then the acceptance by Tribes of, or acquiescence to, DHS Standard Terms and Conditions does not change or alter its inapplicability to an Indian tribe. The execution of grant documents is not intended to change, alter, amend, or impose additional liability or responsibility upon the Tribe where it does not already exist.

Article XLVI - Environmental Planning and Historic Preservation (EHP) Review

DHS/FEMA funded activities that may require an EHP review are subject to the FEMA Environmental Planning and Historic Preservation (EHP) review process. This review does not address all federal, state, and local requirements. Acceptance of federal funding requires recipient to comply with all federal, state, and local laws.

DHS/FEMA is required to consider the potential impacts to natural and cultural resources of all projects funded by DHS/FEMA grant funds, through its EHP Review process, as mandated by the National Environmental Policy Act; National Historic Preservation Act of 1966, as amended; National Flood Insurance Program regulations; and, any other applicable laws and Executive Orders. To access the FEMA EHP screening form and instructions, go to the DHS/FEMA website at: <https://www.fema.gov/media-library/assets/documents/90195>. In order to initiate EHP review of your project(s), you must complete all relevant sections of this form and submit it to the Grant Programs Directorate (GPD) along with all other pertinent project information. The EHP review process must be completed before funds are released to carry out the proposed project; otherwise, DHS/FEMA may not be able to fund the project due to noncompliance with EHP laws, executive order, regulations, and policies.

If ground disturbing activities occur during construction, applicant will monitor ground disturbance, and if any potential archeological resources are discovered, applicant will immediately cease work in that area and notify the pass-through entity, if applicable, and DHS/FEMA.

Budget Narrative

Port of Key West Refurbishment of Police 27 Foot Safeboat:

In order for the Key West Police Department to access and adequately serve the Port of Key West by way of water, they need to remain in compliance with requirements set forth by MTSA/US Coast Guard as outlined in their Facility Security Plan. Meeting the minimum requirement of the Key West Police Department having (3) fully functional, modern law enforcement boats will ensure that when cruise ships return to the port, they will be allowed to enter by the US Coast Guard. While they are currently in possession of three (3) boats that meet this requirement, one 27 foot Safeboat is twenty-one (21) years old and rapidly approaching catastrophic disrepair, thereby risking falling out of compliance. This project would refurbish their existing twenty-one (21) year old, 27 foot Safeboat, bringing it to suitable, warranted functionality and thus giving it another decade of usable life. This cost is estimated to be a third of that to purchase a new boat that would fulfill requirements. Costs below are based on a quotation provided by SAFE Boats International, LLC. The Key West Police Department anticipates the engine work /labor to come in cheaper than this quote as they plan to save money by getting the engine work done locally.

Budget Narrative

Police and Fire Department Boat Lifts:

In order for both the Police and Fire Departments to be able to access and serve the Port of Key West by way of water, they need access to their respective boats. Access to the boats is critical in order to adequately prevent, detect, respond to, and recover from IED and CBRNE incidents. Key West is included as a port of call on international cruises increasing its vulnerability as a hub for transit, as well as, a final destination. Ferries are more vulnerable to IED because their hulls are less robust than cruise ships. The Key West Police and Fire Departments take CBRNE and IED threats seriously. The boat lifts will allow both the Fire and Police departments to access their boats and operate them on water more quickly and efficiently, improving their response rate to threats.
