Re: Notice of Appeal of Substantial Improvement Determination for 2320 Patterson Ave., Key West, Florida (RE # 00050210-000000)

Dear Keri,

Pursuant to Section 34-129(2) of the City of Key West Code of Ordinances, please allow this correspondence to serve as Notice of Appeal of the Substantial Improvement Determination for 2320 Patterson Ave. that was rendered by FEMA/Floodplain Coordinator, Zoe Porter, on October 26, 2023. A copy of the Substantial Improvement Determination appealed, is attached hereto as composite Exhibit "A". A check in the amount of \$2,431.01 is enclosed for payment of the fee for the appeal.

Please contact me regarding coordinating the appeal. Thank you for your consideration and assistance, and please do not hesitate to contact me with any questions.

Sincerely

Barton W. Smith

RE:

Notice of Substantial Improvement Determination - 2320 Patterson Ave, Key West, FL 33040

To Whom It May Concern,

This letter is in response to a series of building permits and ongoing site work associated with the single-family home on the property addressed 2320 Patterson Avenue, Key West, FL 33040, RE #00050210-000000. By way of background, the subject property consists of a single-family home that was constructed in 1969 per the Monroe County Property Appraiser's Office. The property was listed for sale in 2021; the listing described the property as "not in livable condition and will most likely need to be removed". The City of Key West Building Department has analyzed the property and determined that the structure is a Pre-FIRM building located within a mapped Special Flood Hazard Area on the Flood Insurance Rate Map (FIRM), Panel 12087C1517 K, with an effective date of February 15, 2005, within an AE-7 flood zone. As required by local, state, and federal regulations, the completed work to the existing single-family residence has been evaluated for substantial improvement.

Substantial improvement is based on a comparison of the cost estimate of the completed cost of repairs to the pre-renovation market value of the structure (excluding land value). When the completed cost of repairs equal or exceed 50 percent of the pre-renovated market value of the structure, the improvements are considered to be a substantial improvement under the requirements of the National Flood Insurance Program (NFIP) and the City's Floodplain Management Ordinance dated May 17, 2016. It should be noted that two private appraisals have been submitted for this property to attempt to alleviate any potential substantial improvement concerns. These private appraisals have been analyzed by the City of Key West, as well as the State NFIP Coordinator with Florida Division of Emergency Management (FDEM); both agencies have determined that neither of the private appraisals may be utilized for the City's substantial improvement analysis. As such, the City must conduct its substantial improvement calculation based upon the Monroe County Property Appraiser's market improvement value of the structure assessed in 2021, the year the first renovation permit was submitted.

The City of Key West has determined that the completed cost of renovations on this structure compared to the market improvement value assessed in 2021 has led to substantial improvement of the existing structure. This determination is also supported by the use of more costly materials than those identified within the schedule of values and products, as well as the completion of work not included in the original plans. The substantial improvement analysis is attached to this letter, as well as a timeline of events and supporting documentation.

As a result of this determination, the existing building is required to come into compliance with the flood damage-resistant provisions of the Florida Building Code, as well as the City of Key West Code of Ordinances. There are several aspects that must be addressed to achieve compliance. The most significant requirement is that the lowest floor, as defined in 44 CFR 59.1, must be elevated to or above the Design Flood Elevation (DFE).

THE CITY OF KEY WEST

Post Office Box 1409 Key West FL 33041-1409 (305) 809-3810

Please submit a building permit application with plans and specifications for either demolition or elevation of the substantially improved, noncompliant structure. Construction activities that are undertaken without a proper permit are violations and may result in citations, fines, or other legal action. Failure to bring the substantially improved structure into compliance with local and federal floodplain regulations may result in a Section 1316 Declaration, resulting in the denial of flood insurance and federal disaster assistance. It may also significantly reduce the resale value of the property.

Please do not hesitate to contact this office with any questions. We would be pleased to meet with you and the property owner to discuss how to bring this building into compliance. The property owner may also wish to contact their insurance agent to understand how raising the lowest floor higher than the minimum required elevation can reduce NFIP flood insurance premiums.

حمد

Best Regards,

Zoe Porter

FEMA/Floodplain Coordinator

Re: Property:

2320 Patterson Ave

Key West, FL 33040

Borrower:

Passero Development, Inc.

File No.: 112898

In accordance with your request, we have appraised the above referenced property. The report of that appraisal is attached.

The purpose of this appraisal is to estimate the market value of the property described in this appraisal report, as improved, in unencumbered fee simple title of ownership.

This report is based on a physical analysis of the site and improvements, a locational analysis of the neighborhood and city, and an economic analysis of the market for properties such as the subject. The appraisal was developed and the report was prepared in accordance with the Uniform Standards of Professional Appraisal Practice.

The value conclusions reported are as of the effective date stated in the body of the report and contingent upon the certification and limiting conditions attached.

It has been a pleasure to assist you. Please do not hesitate to contact me or any of my staff if we can be of additional service to you.

Sincerely,

Mark MacLaughlin, Cert Gen RZ 3053

### COMPETENCY STATEMENT:

The appraiser has completed at least 20 - 25 appraisals within the subject's market area over the past year and of similar properties in the last several months. The appraiser is familiar with the subject market area and has been appraising units within this market for the past seven years. The last assignment performed in the subject project was performed less than 30 days from the effective date of this report. Extensive research has been performed in the preparation of the report for this assignment.

### Scope of Work/ Intended Use Statement:

THE INTENDED USER OF THIS APPRAISAL REPORT IS THE LENDER/CLIENT. THE INTENDED USE IS TO EVALUATE THE PROPERTY THAT IS THE SUBJECT OF THIS APPRAISAL FOR A MORTGAGE FINANCE TRANSACTION, SUBJECT TO THE SCOPE OF WORK, PURPOSE OF THE APPRAISAL, REPORTING REQUIREMENTS OF THIS APPRAISAL REPORT FORM, AND DEFINITION OF MARKET VALUE. NO ADDITIONAL INTENDED USERS ARE IDENTIFIED BY THE APPRAISER.

### Dodd-Frank Compliance:

NO EMPLOYEE, DIRECTOR, OFFICER, OR AGENT OF THE LENDER, OR ANY OTHER THIRD PARTY ACTING AS A JOINT VENTURE PARTNER, INDEPENDENT CONTRACTOR, APPRAISAL MANAGEMENT COMPANY, OR PARTNER ON BEHALF OF THE LENDER HAS INFLUENCED OR ATTEMPTED TO INFLUENCE THE DEVELOPMENT, REPORTING, RESULT, OR REVIEW OF THIS ASSIGNMENT THROUGH COERCION, EXTORTION, COLLUSION, COMPENSATION, INSTRUCTION, INDUCEMENT, INTIMIDATION, BRIBERY OR IN ANY OTHER MANNER.

I HAVE NOT BEEN CONTACTED BY ANYONE OTHER THAN THE INTENDED USER (LENDER/CLIENT AS IDENTIFIED ON THE FIRST PAGE OF THE REPORT), BORROWER, OR DESIGNATED CONTACT TO MAKE AN APPOINTMENT TO ENTER THE PROPERTY. I AGREE TO IMMEDIATELY REPORT ANY UNAUTHORIZED CONTACTS EITHER PERSONALLY BY PHONE OR ELECTRONICALLY TO the Client.

Local information sources include, but are not limited to, the Key West Association of Realtors, the Marathon and Lower Keys Association of Realtors, Realtors involved within the transactions, and Monroe County Public Records, Monroe County Government offices and websites.

### Exposure and Marketing Time:

Exposure time is always presumed to precede the effective date of the appraisal and is the length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at fair market value on the effective date of the appraisal. Marketing time is an estimate of the amount of time it might take to sell a property at the concluded fair market value level during the period immediately after the effective date of an appraisal.

Based on our review of recent sales transactions for similar properties and our analysis of supply and demand in the local retail market it is our opinion that the exposure time for the property is 3-6 months.

The appraiser has made a personal inspection of the subject property.

The subject property is located 1.0 miles from my office. This assignment requires geographic competency as part of the scope of work. I have spent sufficient time in the subject's market and understand the nuances of the local market and the supply and demand factors relating to the specific property type and the location involved. Such understanding will not be imparted solely from a consideration of specific data such as demographics, costs, sales and rentals. The necessary understanding of local market conditions provides the bridge between a sale and a comparable sale or a rental and a comparable rental.

Short Lived Items: Short lived items include items such as appliances and equipment in the subject property which typically have estimated useful life less than that of the structural improvements. They are included as an expense in the Cost approach as this is a tool utilized by the appraiser in the report to support the opinion of value, if applicable, and is not intended for any other use by the reader or client.

Site Improvements: Site improvements are considered exterior items such as fences, auxiliary structures, irrigation systems and landscaping, which are included in the cost approach for analysis. There is no other intended use for this approach to value.

### FIRREA Certification:

The appraiser certifies and agrees that this appraisal report was prepared in accordance with the requirements of Title XI of the Financial Institutions, Reform, Recovery and Enforcement Act (FIRREA) of 1989, as amended (12 U.S.C. 331 et Seq), and any applicable implementing regulations in effect at the time the appraiser signs the appraisal certification.

### Uniform Data Set (UAD)

At the request of the client, this appraisal report has been prepared in compliance with the Uniform Appraisal Dataset (UAD) from Fannie Mae and Freddie Mac. The UAD requires the appraiser to use standardized responses that include specific formats, definitions, abbreviations and acronyms. A copy of the definitions is attached hereto.

Lender/Client	Lima One Capital						

### **Highest and Best Use:**

Highest and best use is defined as that reasonable and probable use that supports the highest present value, as defined, as of the date of the appraisal report. Alternatively, that use, among reasonably and legal alternative uses, found to be physically possible, appropriately supported, financially feasible and which results in the highest land value. It is to be recognized that in cases were a site has existing improvements, the highest and best use may well determined to be different from the existing use.

In analyzing the highest and best use of the subject property, consideration has been given to the following:

- 1. The legal permissible use
- 2. The physical possible use
- 3. The financially feasible use
- 4. The maximally productive use or uses

The existing use will continue, however, unless and until land value in its highest and best use exceeds the total value of the property in its existing use. Implied within this definition is that the determination of highest and best use results from the appraiser's judgment and analytical skills. Highest and best uses in not a fact but rather determined an opinion determined by an analysis.

The conclusion of the highest and best use was based on an analysis and observed evidence of the subject property and market area. The subject property is legally permissible use based on it's current zoning. In addition, the site size, shape and land to building ratio allow the present structure and Indicate a good utilization of the improvements. The highest and best use of the subject property as vacant would be at its current use.

The appraiser was not furnished with an updated survey, deed or with a certificate of occupancy. This report is based upon the extraordinary assumption that there are no easements, encroachment, deed restrictions or covenants that affect the marketability, desirability and the utility of the subject property. If this extraordinary assumption is found to be incorrect the appraiser's opinion of value as indicated herein may be affected and may require correction.

### Value Conclusion and Market Selling Price:

The subject property's estimate of market value was determined by recent comparable sales within the subject property's market area. The subject property's agreed upon sales price was not a factor when determining the subject property's final estimate of market value and may differ from the final estimate of market value for the subject property.

APPRAISER INDEPENDENCE: No employee, director, officer, or agent of the Seller, or any other third party acting as a joint venture partner, independent contractor, appraisal company, appraisal management company, or partner on behalf of the Seller or Owner, has influenced or attempted to influence the development, reporting, result, or review of this assignment through coercion, extortion, collusion, compensation, instruction, inducement, intimidation, bribery, or in any other manner.

### External Influences:

The subject and comparables are proximate the the Key West International Airport and the Boca Chica Naval Air Station. Due to the limited area and linear geography of Key West, and the Florida Keys in general, most, if not all, of the properties in Key West could be considered proximate to the airport. This does not have a negative impact on the property values in the area or the marketibility of the subject property or comparables.

		Z3ZU F	affeignii wae		Hie	NO. U8427-2	
Borrower	Passero Development, Inc						
Property Address	2320 Patterson Ave						
City	Key West	County	Monroe	State	FL	Zip Code	33040
Lender/Client	Lima One Capital						

2220 Dellercon Ave

The subject assignment and agreed scope of work included a determination of two values for the property, as-is and a subject to value. The main body of the report includes the subject value based on the proposed renovations and remodeling of the existing improvements to current standards. An additional value is included based on the as-is condition as of the effective date.

Comparables considered for the as-is value are included as comps 7, 8, 9 in the supplemental addenda and additional grid sheet. The analysis on that page is based on the existing conditions of the improvements. Not the proposed improved condition. The adjustments that appear are calculated from the existing layout, bed bath count, GLA and condition.

Based on that analysis, the opinion of value, as-is is \$511,000.

### REV 03-21-2021

At the request of the client, the report has been modified from its original form and a new signature date is contained herein. The property did not require reinspection for this reconsideration and therefore the effective date has not changed.

Borrower name corrected spelling.

Comp 5 photo added.

Purchase price corrected from \$385,000 to \$385,005

Comp 9 Adjustments - A note on the adjustments for comps 7,8 & 9 appears in the original report, on this same page, above.

This indicates that the adjustments which appear in the grid for these comps **only**, are based on the **EXISTING** conditions and **CONFIGURATION** of the improvements, as of the effective date. The limitations of the appraisal software prevent the form from reflecting two sets of data for the subject and thus the data on the subject column reflects the **PROPOSED** condition and configuration of the improvements, as this is the basis for the primary analysis in the report.

# Uniform Residential Appraisal Report

The sales utilized are similar to the subject in design, function and utility a		- X1
for analysis. Adjustments are based on paired sales analysis from the sub	n e e e e e e e e e e e e e e e e e e e	lling agents, owners, and
prior appraisals. An active listing has been provided in order to illustrate r	narket trend.	
900	- 22/07	
The subject's variance from the predominant value does not have a nega		
the typical buyer in this market area and price range. Statistical concepts	like predominant value are rarely applicable	in the Keys market due to
the lack of homogenous improvements within subdivisions and streets.		
***	the institute of the second of the second or the	
The comparables utilized have been updated to varying degrees, which is		
condition based on the extent of the improvements updating or remodeling		
various upgrades or updating have been reviewed and analyzed including realtors, to determine the value of adjustments incorporated herein. Prima		
finishes such as flooring, trim, plumbing and electric fixtures, and general		
misties such as nooting, utili, plumbing and electric fixtures, and general	updating, as the subject maintains original,	uated iit and iiinisii.
The subject is located approximately 5 miles from my office. This assignment	ent requires deographic competency as a r	art of the scope of work
have spent sufficient time in the subjects market and understand the nuar		
the specific property type and the location involved. Such understanding		
demographics, costs, sales and rentals. The necessary understanding of		
comparable sale and a rental and a comparable rental.		
This report is based upon the extraordinary assumption that there are no	easements, encroachment, deed restrictions	or covenants that affect the
marketability, desirability and the utility of the subject property. If this extra	ordinary assumption is found to be incorrect	the appraiser's opinion of
value as indicated herein may be affected and may require correction

Freddle Mac Form 70 March 2005

UAD Version 9/2011

Page 3 of 6

Fannie Mae Form 1004 March 2005

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended use, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and exterior areas of the subject property, (2) Inspect the nelghborhood, (3) Inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The Intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE:

The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market, (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS:

The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of the circ
- 3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental assessment of the property.
- 6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or attentions on the assumption that the completion, repairs, or attentions of the subject property will be performed in a professional manner.

Fannie Mae Form 1004 March 2005

### APPRAISER'S CERTIFICATION:

The Appraiser certifies and agrees that:

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- 2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparation approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- B. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined spacific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
- 20. I Identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

- 21. The lender/client may disclose or distribute this appraisal report to: the borrower; another secondary market participants; data collection or reporting services; professional appraisal organizations; any department, appraisar's or supervisory appraiser's or s
- 22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
- 23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
- 24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
- 25. Any Intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION:

The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

#### Condition Ratings and Definitions

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The Improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an engoing basis resulting in an adequately maintained property.

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

#### Quality Ratings and Definitions

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this qualify grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior omamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

#### UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

Q:

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

04

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

#### Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

#### Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurblishment and/or replacing components to meet existing market expectations. Updates do not include stantificant alterations to the existing structure.

#### Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas tixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

#### **Explanation of Bathroom Count**

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

#### Example:

3.2 Indicates three full baths and two half baths.

# FDEM Private Appraisal Review

# ATTACHMENT #6

# 3/17/2021

# Appraisal Checklist for SI/SD Determinations (USPAP 2020-21)

This checklist focuses on common appraisal deficiencies and provides reasons that a report might be rejected or returned for correction. See supporting citations & explanations on the back page.

There should be only one "No" (for item 10). It is OK to leave an item blank if it doesn't apply.

# Assignment Conditions/Certification

$Y N P_2$	2
-----------	---

1		X	3	Is the local floodplain administrator identified as an intended user?
2		J	2	Is the intended use identified as something like, "to support a building permit application
		X	5	subject to significant improvement/significant damage determination under NFIP regulations"?
3		X	-	Does your local ordinance permit an appraisal of this type?
4				Is the value definition stated, and the definition source cited?
5	X		28	Is the appraiser state certified/licensed?
6				Is the appraisal effective date (date of value) correct for the assignment conditions?
7	X		10	Is there a certification statement of compliance with USPAP?

## **Pertinent Facts**

Y	N	Pg

8		Is the building described as it existed prior to damage or the start of work?
9	X	Is the building description/quality rating consistent with the images provided?
10	M 22	Are there misrepresentations, untrue statements, or incorrect building descriptions?

# Methodology

Y N Pg

11		Is the valuation methodology appropriate/correct?
12	V 9	If there is a replacement cost estimate, is it from a recognized cost estimating service, by
	N 0	analysis of examples of similar construction, or by another acceptable method?
13	X	Is the depreciation estimate supported by logical analysis and discussion?
14	X 8	Is the value of land, site improvements, and accessory structures excluded?

# Report Documentation

Y N Pg

		- 4	- 6	
15	X			Are the images in the report sufficient to assess building quality/condition?
16		X		Are replacement cost & depreciation estimates supported by adequate documentation?
17		ox		If deductions were made, is the value of land & other improvements well documented?

Appraisal Report Accepted ____ or Rejected ____ - DID NOT USE DEF. OF MARKET VALUE FROM CITY'S FOM ORD.
- TOO MANY "NOS" ON CHECKLIST
- NOT APPRAISED FOR SI/SD DETERM. Reasons for rejection:

- Scope OF WORK NORS \$ 252,004

© 2020 Ray Carroll

**USPAP** = Uniform Standards of Professional Appraisal Practice; governs all certified appraisers; "SR" stands for "Standards Rule"; see: http://www.uspap.org/

SI/SD Desk Reference = Guidance for local officials, appraisers, and the public.

## Assignment Conditions/Certification

- 1. USPAP SR 2-2(a)(ii) requires appraisers to state the identity of intended users other than the client. Because they rely on the appraisal, the client and floodplain administrator are always intended users.
- 2. USPAP SR 2-2(a)(iii) requires appraisers to report the appraisal's intended use. Knowing the intended use helps determine the applicable definition of value, and appropriate valuation methodology.
- 3. What valuation methods does your local ordinance permit?
- 4. USPAP SR 2-2(a)(vi) requires appraisers to "state the type and definition of value and cite the source of the definition;" If the NFIP "market value" is appraised, then the local ordinance Market Value definition should be cited. If ACV is estimated, then the NFIP Actual Cash Value definition should be cited.
- 5. See SI/SD, Section 4.5.1, 1st paragraph Professional appraisals by licensed appraisers subject to USPAP are identified to be the most accurate and reliable.
- 6. See SI/SD, Sec 4.5, 1st paragraph When permitting for an improvement, the appraisal effective date should be before the start of construction of the improvement. If permitting for the repair of damage, then the appraisal effective date should be immediately before the damage occurred.
- 7. See SI/SD Sec, 4.5.1, 1st paragraph. A statement of compliance with USPAP is required.

#### **Pertinent Facts**

- 8. **USPAP SR 2-1(a)** requires appraisers to, "clearly and accurately set forth the appraisal in a manner that is not misleading;" Is the building description consistent with the facts on the appraisal effective date?
- 9. USPAP SR 2-1(a) requires appraisers to, "clearly and accurately set forth the appraisal in a manner that is not misleading;" Are building images consistent with the description and quality on which value was based?
- 10. USPAP SR 2-1(a) requires appraisers to, "clearly and accurately set forth the appraisal in a manner that is not misleading;" Is the appraisal report a truthful report of the facts on which value was based?

#### Methodology

- 11. **USPAP SR 1-1(a)** requires appraisers to, "be aware of, understand, and correctly employ those recognized techniques that are necessary to produce a credible appraisal;" ACV is the only appropriate method for individual condo units, because condo unit sales include the value of land and other improvements.
- 12. USPAP SR 2-2(a)(x)(i) requires appraisers to, "provide sufficient information to indicate that the appraiser complied with the requirements of STANDARD 1 by: summarizing the appraisal methods and techniques employed;" Replacement cost should be the conclusion of an analytical process.
- 13. USPAP SR 2-2(a)(x)(i) requires appraisers to, "provide sufficient information to indicate that the appraiser complied with the requirements of STANDARD 1 by: summarizing the appraisal methods and techniques employed;" Depreciation should be the conclusion of an analytical process.
- 14. See USPAP SR 1-1(a) & SI/SD Sec 4.5, 3rd paragraph, second bullet point. Failure on this point calls into question the appraiser's competency.

#### Report Documentation

- 15. USPAP SR 2-1(b) requires appraisal reports to, "contain sufficient information to enable the intended user(s) of the appraisal to understand the report properly;" See also SI/SD 4.5.1, last paragraph.
- 16. USPAP SR 2-2(a)(x)(5) requires appraisors, when they prepare reports, to, "summarize the information analyzed and the reasoning that supports the analyses, opinions, and conclusions,.." Unsupported conclusions are not permitted.
- 17. USPAP SR 2-2(a)(x)(5) requires appraisers, when they prepare reports, to, "summarize the information analyzed and the reasoning that supports the analyses, opinions, and conclusions,.." Unsupported conclusions are not permitted.

#### ssumptions Limiting Conditions & Scope of Work

<b>QQUII</b>	IPGOID, EIIIIIGIIG	Oniditions o	t OOOPC OI	TTOIN	FIRE INC.	Z00ZJA	
Property A	ddress: 2320 Patterson Ave		City: Key West		State: FL	Zip Code: 33040	
Client:	Mark Passero	Address:	22972 Overseas I	lwy, Summerland	Key, FL 33	042	
Appraiser:	Craig Martin	Address:	3138 Northside Di	ive, Suite 103, Ke	West, FL	33040	

STATEMENT OF ASSUMPTIONS & LIMITING CONDITIONS

- The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
- The appraiser may have provided a sketch in the appraisal report to show approximate dimensions of the improvements, and any such sketch is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size. Unless otherwise indicated, a Land Survey was not performed.
- · If so indicated, the appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no quarantees, express or implied, regarding this determination.
- The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.
- If the cost approach is included in this appraisal, the appraiser has estimated the value of the land in the cost approach at its highest and best use, and the improvements at their contributory value. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used. Unless otherwise specifically indicated, the cost approach value is not an insurance value, and should not be used as such.
- The appraiser has noted in the appraisal report any adverse conditions (including, but not limited to, needed repairs, depreciation, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property, or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property, or adverse environmental conditions (including, but not limited to, the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no quarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.
- The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
- The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
- If this appraisal is indicated as subject to satisfactory completion, repairs, or alterations, the appraiser has based his or her appraisal report and valuation conclusion on the assumption that completion of the improvements will be performed in a workmanlike manner.
- An appraiser's client is the party (or parties) who engage an appraiser in a specific assignment. Any other party acquiring this report from the client does not become a party to the appraiser-client relationship. Any persons receiving this appraisal report because of disclosure requirements applicable to the appraiser's client do not become intended users of this report unless specifically identified by the client at the time of the assignment.
- The appraiser's written consent and approval must be obtained before this appraisal report can be conveyed by anyone to the public, through advertising, public relations, news, sales, or by means of any other media, or by its inclusion in a private or public database.
- An appraisal of real property is not a 'home inspection' and should not be construed as such. As part of the valuation process, the appraiser performs a non-invasive visual inventory that is not intended to reveal defects or detrimental conditions that are not readily apparent. The presence of such conditions or defects could adversely affect the appraiser's opinion of value. Clients with concerns about such potential negative factors are encouraged to engage the appropriate type of expert to investigate.

The Scope of Work is the type and extent of research and analyses performed in an appraisal assignment that is required to produce credible assignment results, given the nature of the appraisal problem, the specific requirements of the intended user(s) and the intended use of the appraisal report. Reliance upon this report, regardless of how acquired, by any party or for any use, other than those specified in this report by the Appraiser, is prohibited. The Opinion of Value that is the conclusion of this report is credible only within the context of the Scope of Work, Effective Date, the Date of Report, the Intended User(s), the Intended Use, the stated Assumptions and Limiting Conditions, any Hypothetical Conditions and/or Extraordinary Assumptions, and the Type of Value, as defined herein. The appraiser, appraisal firm, and related parties assume no obligation, liability, or accountability, and will not be responsible for any unauthorized use of this report or its conclusions.

## Appraisal Checklist for SI/SD Determinations (USPAP 2020-21)

This checklist focuses on common appraisal deficiencies and provides reasons that a report might be rejected or returned for correction. See supporting citations & explanations on the back page.

There should be only one "No" (for item 10). It is OK to leave an item blank if it doesn't apply.

#### **Assignment Conditions/Certification**

1	~		3	Is the local floodplain administrator identified as an intended user?
2	V		3	Is the intended use identified as something like, "to support a building permit application subject to significant improvement/significant damage determination under NFIP regulations"?
3	V		-	Does your local ordinance permit an appraisal of this type?
4	V		8	Is the value definition stated, and the definition source cited?
5	/	1	22	Is the appraiser state certified/licensed?
6	V		1	Is the appraisal effective date (date of value) correct for the assignment conditions?
7	V		2	Is there a certification statement of compliance with USPAP?

#### **Pertinent Facts**

Y	N	Pg

8		1	3	Is the building described as it existed prior to damage or the start of work?
9	V	1	970	Is the building description/quality rating consistent with the images provided?
10		1		Are there misrepresentations, untrue statements, or incorrect building descriptions?

### Methodology

Y	N	P₂
_		

11	v	1	5	Is the valuation methodology appropriate/correct?
12			5	If there is a replacement cost estimate, is it from a recognized cost estimating service, by analysis of examples of similar construction, or by another acceptable method?
13	1			Is the depreciation estimate supported by logical analysis and discussion?
14	-		5	Is the value of land, site improvements, and accessory structures excluded?

#### **Report Documentation**

15	1	10	Are the images in the report sufficient to assess building quality/condition?
16	-	5	Are replacement cost & depreciation estimates supported by adequate documentation?
17	V	4	If deductions were made, is the value of land & other improvements well documented?

This checklist focuses on common appraisal deficiencies and provides reasons that a report might be rejected or returned for correction. See supporting citations & explanations on the back page.

There should be only one "No" (for item 10). It is OK to leave an item blank if it doesn't apply.

### **Assignment Conditions/Certification**

	Y	N	Рg	
1	X		2	Is the local floodplain administrator identified as an intended user?
2	X		2/3	Is the intended use identified as something like, "to support a building permit application subject to significant improvement/significant damage determination under NFIP regulations"?
3			-	Does your local ordinance permit an appraisal of this type?
4	X		7	Is the value definition stated, and the definition source cited? when Der
5	X		21	Is the appraiser state certified/licensed?
6		X		Is the appraisal effective date (date of value) correct for the assignment conditions?
7	X		il	Is there a certification statement of compliance with USPAP?

### **Pertinent Facts**

			$P_{\xi}$	1	
8	X		3	Is the building described as it existed prior to damage or the start of work?	"Pune"
9		K		Is the building description/quality rating consistent with the images provid	ed?

### Are there misrepresentations, untrue statements, or incorrect building descriptions? Methodology

10

	Y	N	Pg	
11		X	5	Is the valuation methodology appropriate/correct?
12		X	-	If there is a replacement cost estimate, is it from a recognized cost estimating service, by analysis of examples of similar construction, or by another acceptable method? No Proceedings
13		X		Is the depreciation estimate supported by logical analysis and discussion?
14	X		5	Is the value of land, site improvements, and accessory structures excluded?

### Report Documentation

10	YNF	S B
15	X	Are the images in the report sufficient to assess building quality/condition?
16	X	Are replacement cost & depreciation estimates supported by adequate documentation?
17	X	If deductions were made, is the value of land & other improvements well documented?

Appraisal Report Accepted _____ or Rejected X Reasons for rejection:

- SAME PHOTOS AS 2021 APPRAISAC - MUST USE DEF. OF MARKET VALLE FROM FRODE ORD.

- EFFECTIVE DATE OF HOPRAISITE (2/11/22) AFTER START OF

© 2020 Ray Carroll

USPAP = Uniform Standards of Professional Appraisal Practice; governs all certified appraisers; "SR" stands for "Standards Rule"; see: http://www.uspap.org/

SI/SD Desk Reference = Guidance for local officials, appraisers, and the public.

### Assignment Conditions/Certification

- USPAP SR 2-2(a)(ii) requires appraisers to state the identity of intended users other than the client.
   Because they rely on the appraisal, the client and floodplain administrator are always intended users.
- 2. USPAP SR 2-2(a)(iii) requires appraisers to report the appraisal's intended use. Knowing the intended use helps determine the applicable definition of value, and appropriate valuation methodology.
- 3. What valuation methods does your local ordinance permit?
- 4. USPAP SR 2-2(a)(vi) requires appraisers to "state the type and definition of value and cite the source of the definition;" If the NFIP "market value" is appraised, then the local ordinance Market Value definition should be cited. If ACV is estimated, then the NFIP Actual Cash Value definition should be cited.
- 5. See SI/SD, Section 4.5.1, 1st paragraph Professional appraisals by licensed appraisers subject to USPAP are identified to be the most accurate and reliable.
- 6. See SI/SD, Sec 4.5, 1st paragraph When permitting for an improvement, the appraisal effective date should be before the start of construction of the improvement. If permitting for the repair of damage, then the appraisal effective date should be immediately before the damage occurred.
- 7. See SI/SD Sec, 4.5.1, 1st paragraph. A statement of compliance with USPAP is required.

### **Pertinent Facts**

- 8. **USPAP SR 2-1(a)** requires appraisers to, "clearly and accurately set forth the appraisal in a manner that is not misleading;" Is the building description consistent with the facts on the appraisal effective date?
- 9. USPAP SR 2-1(a) requires appraisers to, "clearly and accurately set forth the appraisal in a manner that is not misleading;" Are building images consistent with the description and quality on which value was based?
- 10. **USPAP SR 2-1(a)** requires appraisers to, "clearly and accurately set forth the appraisal in a manner that is not misleading;" Is the appraisal report a truthful report of the facts on which value was based?

### Methodology

- 11. USPAP SR 1-1(a) requires appraisers to, "be aware of, understand, and correctly employ those recognized techniques that are necessary to produce a credible appraisal;" ACV is the only appropriate method for individual condo units, because condo unit sales include the value of land and other improvements.
- 12. USPAP SR 2-2(a)(x)(i) requires appraisers to, "provide sufficient information to indicate that the appraiser complied with the requirements of STANDARD 1 by: summarizing the appraisal methods and techniques employed;" Replacement cost should be the conclusion of an analytical process.
- 13. USPAP SR 2-2(a)(x)(i) requires appraisers to, "provide sufficient information to indicate that the appraiser complied with the requirements of STANDARD 1 by: summarizing the appraisal methods and techniques employed;" Depreciation should be the conclusion of an analytical process.
- 14. See USPAP SR 1-1(a) & SI/SD Sec 4.5, 3rd paragraph, second bullet point. Failure on this point calls into question the appraiser's competency.

### Report Documentation

- 15. USPAP SR 2-1(b) requires appraisal reports to, "contain sufficient information to enable the intended user(s) of the appraisal to understand the report properly;" See also SI/SD 4.5.1, last paragraph.
- 16. USPAP SR 2-2(a)(x)(5) requires appraisers, when they prepare reports, to, "summarize the information analyzed and the reasoning that supports the analyses, opinions, and conclusions,.." Unsupported conclusions are not permitted.
- 17. USPAP SR 2-2(a)(x)(5) requires appraisers, when they prepare reports, to, "summarize the information analyzed and the reasoning that supports the analyses, opinions, and conclusions,.." Unsupported conclusions are not permitted.

### Timeline of Events – 2320 Patterson Avenue

March 4, 2021	An exterior renovation permit application for BLD2021-0584 was submitted to the Building Department for 2320 Patterson Avenue by Gulfstream Construction.
May 5, 2021	A code violation, Code Case CC2021-00760, was opened for unpermitted site work.
May 20, 2021	A site visit was conducted by the Floodplain Manager. The site visit revealed the permit application for BLD2021-0584 was undervalued. Applicant was advised a cost breakdown, as-is private appraisal, and updated plans must be submitted.
June 2, 2021	Mark Passero contacted the Code Compliance Department about the status of the building permit application.
June 11, 2021	A private appraisal, schedule of values, and updated plans were submitted for building permit BLD2021-0584.
June 14, 2021	The private appraisal and schedule of values were not accepted by the Floodplain Manager.
July 16, 2021	BLD2021-0584 is still in corrections with the Floodplain Manager due to concerns with the submitted private appraisal and schedule of values; property owner Mark Passero met with the CBO. Rai Ramsingh and Code Officer Troy Montero.
July 26, 2021	Gulfstream Construction applied for a building permit for after-the-fact exploratory demolition The permit, BLD2021-2179, was intended to satisfy the unpermitted work cited in CC2021-00760.
August 10, 2021	BLD2021-2179 was approved for the after-the-fact exploratory demolition associated with CC2021-00760 under the condition that no further work is conducted, and the permit is closed once paid for and issued.
February 11, 2022	<ol> <li>BLD2021-0584 approved with the following conditions:</li> <li>The City conducts all inspections on the property.</li> <li>All work adheres to the submitted schedule of value using the specified type of finishes.</li> <li>The garage is not converted into habitable space.</li> <li>The footprint of the existing house remains the same.</li> <li>No additions or expansions to any walls shall occur.</li> </ol>
March 3, 2022	Subsequent roofing permit, BLD2022-0616, is applied for and approved.
April 13, 2022	Subsequent plumbing permit, BLD2022-1053 approved.
April 26, 2022	Subsequent mechanical HVAC permit, BLD2022-0722, approved on the condition that the A/C units are mounted above BFE=1' and outside of the required setbacks.
April 27, 2022	Subsequent electrical permit, BLD2022-0725, approved.
November 30, 2022	Building inspections for permits BLD2022-1053 (plumbing by Inspector Wright) and BLD2022-0725 (electrical/mechanical inspection by Inspector Richardson) were disapproved. Both inspectors expressed concerns with the provided job valuation.
January 10, 2023	Building inspection for permit BLD2022-0722 is disapproved by Inspector Richardson and CFM Bridget Flores due to the condenser unit not being elevated at or above BFE+1'.
September 13, 2023	Site visit with Mark Passero, Bart Smith (Passero's representative), Raj Ramsingh, and Zoe Porter (CFM for the City). The site visit exhibited additional work that was not approved via BLD2021-0584, as well as the use of unapproved materials.

#### We hereby submit an estimate for

#### RE: Roof

- 1. We will tear off existing roof to a smooth workable surface and haul away debris.
- 2. We will install a self-adhered rubberized asphalt membrane designed as a high-temperature metal roofing underlayment (secondary water barrier.)
- 3. We will install new eave drip.
- 4. We will install new flashings to soil pipes.
- 5. We will install a New asphault-roof color to be determined.
- 6. We will fasten above roof system with stainless head screws.
- 7. We will install a granulated modified bitumen membrane to flat roof(s).
- 8. Above roof carries a five-year warranty on workmanship.
- 9. We propose to furnish material and labor for the sum of \$18,000.00.
  - *Above price is valid for 30 days due to possible increases in metal pricing.
  - *Lindholm Construction Inc will obtain a building permit and provide engineering for the above work. Permit fees are not included in this estimate and will be an additional cost.
  - *Carpentry if needed will be \$55/hour/man plus material cost.
  - *Terms of payment:

30% deposit

Balance due upon completion

credit card fees apply

All material is guaranteed to be as specified. All work to be completed in a professional manner according to standard practices. Any alteration or deviation from above specifications involving extra costs will be executed only upon written orders, and will become an extra charge over & above the estimate. All agreements contingent upon strikes, accidents or delays beyond our control. Owner to carry fire, tomado, and other necessary insurance.
Our workers are fully covered by Worker's Compensation insurance.

ACCEPTANCE of PROPOSAL -- The above prices, specifications and conditions are satisfactory and are hereby accepted. You are authorized to do the work as specified. Payment will be made as outlined above.
