1	Qualifications and Relevant Experience	30	17	15	15	15	20	15
	– Experience in managing water quality and QA/QC data							
	– Experience collecting environmental samples (FDEP SOP)							
	– Data deployment and collection							
	– Surface water sampling							
	– Field meter maintenance and calibration							
	– Laboratory analysis and certifications							
	– Staff Qualifications							
	– Safety/Hazardous Waste Plan							
	– Quality Assurance Program							
	– # of Similar Water Quality Analyses Performed							
	– Methods Used							
2	References and Quality of Past Performance	5	5	2	5	3	5	5
3	Project Approach – Ability to Meet Requirements	20	11	9	10	11	12	10
	– Operations Plan, Staffing, Scheduling							
	– Unfavorable conditions plan							
	– Field data entry/QA							
	– Project Management & QA/QC							
	– Sampling Protocols/Quality Plan							
	– Subcontractor Documentation							
	– Equipment suitability							
4	Other Information	5	4	2	3	2	5	2
	– Value-added options							
	– Familiarity with Key West							
	– Clients in region (USA, FL, SE FL, Key West)							
	– Contract deviations							
5	Cost Effectiveness	35	15	14	19	18	17	14
6	Project Schedule and Deliverables	5	5	3	4	2	5	3
