RECOMMENDATION

Planning for Public Art installations at the above listed City-owned properties should be undertaken by the AIPP Board. A project liaison may be designated for each, however the Administrative Coordinator shall act as a liaison between artists, architects, contractors, developers, city departments, and community groups in the process of Public Art projects.

FINANCIAL IMPACT

The use of designated AIPP funds for the installation of Public Art seeks to fulfill the objective of promoting the Island of the Arts and including the aesthetic in community development. In doing so, the Public Art installations will enhance the economic and cultural value of the City Properties on which it is installed. Installed Public Art also serves to develop placemaking opportunities within the larger Cityscape which can promote significant, long term, beneficial, economic growth, healthful opportunities for citizens to engage with the built environment, and add aesthetic value to required urban infrastructure.
