RESOLUTION NO. 15-092

VARIANCE: 716-718 SOUTH STREET
RE # 00036870-000000, AK # 1037681

A RESOLUTION OF THE KEY WEST BOARD OF ADJUSTMENT APPROVING WITH CONDITIONS A VARIANCE TO MAXIMUM HEIGHT FROM 30 FEET TO 38 FEET IN ORDER TO ACCOMMODATE NON-HABITABLE HARDWARE AND UTILITY STRUCTURES AS PART OF THE RECONSTRUCTION OF 17 TRANSIENT RESIDENTIAL DWELLING UNITS ON PROPERTY LOCATED AT 716-718 SOUTH STREET WITHIN THE HISTORIC RESIDENTIAL / OFFICE (HRO) ZONING DISTRICT PURSUANT TO SECTIONS 90-395, 122-930(3) AND 122-1149 OF THE LAND DEVELOPMENT REGULATIONS OF THE CODE OF ORDINANCES OF THE CITY OF KEY WEST, FLORIDA; PROVIDING FOR CONDITIONS; PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, the Key West Board of Adjustment (the "Board") finds that special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures or buildings in the same district; and

WHEREAS, the Board finds that granting the variance requested would not confer upon the applicant special privileges denied by the land development regulations to other lands, buildings or structures in the same zoning district; and

WHEREAS, the Board finds that literal interpretation of the provisions of the land development regulations would deprive the applicant of rights commonly enjoyed by other properties in this same zoning district under the terms of this ordinance and would

work unnecessary or undue hardship on the applicant; and

WHEREAS, the Board finds that the variance requested is the minimum variance that would make possible the reasonable use of the land, building or structure; and

WHEREAS, the Board finds that the grant of the variance would be in harmony with the general intent and purpose of the land development regulations and that such variance would not be injurious to the area involved and otherwise detrimental to the public interest or welfare; and

WHEREAS, the Board finds that the applicant cannot make reasonable use of the land, building or structure without the grant of the instant variance; and

WHEREAS, the Board of Adjustment finds that the applicant has satisfied the conditions of Key West Code of Ordinances Section 90-395 and likewise met the requirements established by Code Section 90-274.

NOW, THEREFORE, BE IT RESOLVED by the Board of Adjustment of the City of Key West, Florida:

Section 1: That a non-habitable space variance to the 30-foot maximum building height allowed within the Historic Residential / Office (HRO) Zoning District under Section 122-930(3) of the Code of Ordinances of the City of Key West, Florida to the proposed height of 38 feet is hereby approved pursuant to City Code Sections 90-395 and 122-1149.

Section 2: That this approval is subject to the following conditions:

1. This approval shall not become effective until the concurrent application for Major Development Plan is approved and effective.

2. This height variance shall only be for the nonhabitable rooftop structures as shown on the attached approved plans by William P. Horn, P.A. Any future increase of height beyond the three-dimension building envelope shall require a new height variance application.

3. The rooftop pool shall be closed between sunset and sunrise each day.

Section 3: This Resolution shall go into effect immediately upon its passage and adoption and authentication by the signatures of the presiding officer and the Clerk of the Board.

Section 4: This Resolution is subject to appeal periods as provided by the City of Key West Code of Ordinances (including the Land Development Regulations). After the City appeal period has expired, this permit or development order shall be rendered to the Florida Department of Economic Opportunity. Pursuant to Chapter 73C-44, F.A.C., this permit or development order is not effective for 45 days after it has been properly rendered to the DEO with all exhibits and applications

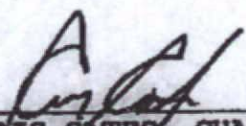

attached to or incorporated by reference in this approval; that within the 45-day review period, the DEO can appeal the permit or development order to the Florida Land and Water Adjudicatory Commission; and that such an appeal stays the effectiveness of the permit until the appeal is resolved by agreement or order.

Passed and adopted by the Board of Adjustment at a meeting held this 3rd day of March, 2015.

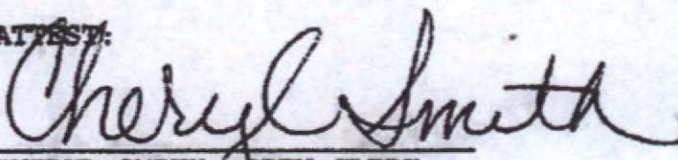

Authenticated by the Presiding Officer and Clerk of the Board on 4th day of March, 2015.

Please consider this memo our petition to extend Resolution 15-090, a Major Development Plan Approval, and Resolution 15-092, a variance to maximum height, for the above referenced project at 716-718 South Street pursuant to Sec. 108-203 (b)¹. Key West Code Sec. 108-203(b) permits an initial 12-month extension and subsequent extensions if fully noticed in accordance with division 2 of article VIII of chapter 90^{II}.

We thank you in advance for your consideration in this matter.

*Please note, variances are reviewed as quasi-judicial hearings, and it is improper for the owner or applicant to speak to a Planning Board member or City Commissioner about the hearing.

Standards for Considering Variances

Before any variance may be granted, the Planning Board and/or Board of Adjustment must find all of the following requirements are met:

1. Existence of special conditions or circumstances. That special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other land, structures or buildings in the same zoning district.

Special Conditions exist that are peculiar to the land, structure and building. This property is currently over dense and out of compliance with the code's dimensional regulations. The proposed project will bring it into better compliance.

2. Conditions not created by applicant. That the special conditions and circumstances do not result from the action or negligence of the applicant.

Conditions were not created by the applicant. The applicant is seeking approval to bring the property further into compliance with the code.

3. Special privileges not conferred. That granting the variance(s) requested will not confer upon the applicant any special privileges denied by the land development regulations to other lands, buildings or structures in the same zoning district.

No special privileges will be conferred by the granting of this variance. The variance will allow for access of the green roof garden by people who need an elevator.

4. Hardship conditions exist. That literal interpretation of the provisions of the land development regulations would deprive the applicant of rights commonly enjoyed by other properties in this same zoning district under the terms of this ordinance and would work unnecessary and undue hardship on the applicant.

Hardship conditions exist. If the variance is not granted, the green roof garden will not be accessible to those unable to use stairs.

5. Only minimum variance(s) granted. That the variance(s) granted is/are the minimum variance(s) that will make possible the reasonable use of the land, building or structure.

This variance is to allow only the portion of the structure related to the ADA access to exceed height.

6. Not injurious to the public welfare. That granting of the variance(s) will be in harmony with the general intent and purpose of the land development regulations and that such variances will not be injurious to the area involved or otherwise detrimental to the public interest or welfare.

Access to the green roof garden will not be injurious to the public welfare.

7. Existing nonconforming uses of other property shall not be considered as the basis for approval. That no other nonconforming use of neighboring lands, structures, or buildings in the same district, and that no other permitted use of lands, structures or buildings in other districts shall be considered grounds for the issuance of a variance.

No other existing nonconforming uses are considered as the basis for approval.

The Planning Board and/or Board of Adjustment shall make factual findings regarding the following:

- That the standards established in Section 90-395 have been met by the applicant for a variance.
- That the applicant has demonstrated a "good neighbor policy" by contacting or attempting to contact all noticed property owners who have objected to the variance application, and by addressing the objections expressed by these neighbors. Please describe how you have addressed the "good neighbor policy."

DEVELOPMENT CONSULTANTS

Please consider this memo our petition to extend Resolution 15-090, a Major Development Plan Approval, and Resolution 15-092, a variance to maximum height, for the above referenced project at 716-718 South Street pursuant to Sec. 108-203 (b)¹. The Development Plan became effective on May 14, 2015 concurrent with the expiration of the DEO appeal period.

This one-year extension to the expiration of the development approval will allow the owners to plan accordingly over the next year, securing funds for increasing construction costs and establishing an efficient construction timeline which will also minimize the impact on the neighborhood. Key West Code Sec. 108-203(b) permits an initial 12-month extension and subsequent extensions if fully noticed in accordance with division 2 of article VIII of chapter 90¹.

We thank you in advance for your consideration in this matter.

Respectfully,

This application is reviewed pursuant to Section 90-391 through 90-397 of the City of Key West Land Development Regulations (LDRs). The City's LDRs can be found in the Code of Ordinances online at http://www.municode.com/Library/FL/Key_West under Subpart B.

***Please note, variances are reviewed as quasi-judicial hearings, and it is improper for the owner or applicant to speak to a Planning Board member or City Commissioner about the hearing.**

Standards for Considering Variances

Before any variance may be granted, the Planning Board and/or Board of Adjustment must find all of the following requirements are met:

1. Existence of special conditions or circumstances. That special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other land, structures or buildings in the same zoning district.

Special Conditions exist that are peculiar to the land, structure and building. This property is currently over dense and out of compliance with the code's dimensional regulations. The proposed project will bring it into better compliance.

2. Conditions not created by applicant. That the special conditions and circumstances do not result from the action or negligence of the applicant.

Conditions were not created by the applicant. The applicant is seeking approval to bring the property further into compliance with the code.

3. Special privileges not conferred. That granting the variance(s) requested will not confer upon the applicant any special privileges denied by the land development regulations to other lands, buildings or structures in the same zoning district.

No special privileges will be conferred by the granting of this variance. The variance will allow for access of the green roof garden by people who need an elevator.

4. Hardship conditions exist. That literal interpretation of the provisions of the land development regulations would deprive the applicant of rights commonly enjoyed by other properties in this same zoning district under the terms of this ordinance and would work unnecessary and undue hardship on the applicant.

Hardship conditions exist. If the variance is not granted, the green roof garden will not be accessible to those unable to use stairs.

5. Only minimum variance(s) granted. That the variance(s) granted is/are the minimum variance(s) that will make possible the reasonable use of the land, building or structure.

This variance is to allow only the portion of the structure related to the ADA access to exceed height.

6. Not injurious to the public welfare. That granting of the variance(s) will be in harmony with the general intent and purpose of the land development regulations and that such variances will not be injurious to the area involved or otherwise detrimental to the public interest or welfare.

Access to the green roof garden will not be injurious to the public welfare.

7. Existing nonconforming uses of other property shall not be considered as the basis for approval. That no other nonconforming use of neighboring lands, structures, or buildings in the same district, and that no other permitted use of lands, structures or buildings in other districts shall be considered grounds for the issuance of a variance.

No other existing nonconforming uses are considered as the basis for approval.

The Planning Board and/or Board of Adjustment shall make factual findings regarding the following:

- That the standards established in Section 90-395 have been met by the applicant for a variance.
- That the applicant has demonstrated a "good neighbor policy" by contacting or attempting to contact all noticed property owners who have objected to the variance application, and by addressing the objections expressed by these neighbors. Please describe how you have addressed the "good neighbor policy."

REQUIRED SUBMITTALS: All of the following must be submitted in order to have a complete application. Please submit one paper copy and one electronic copy of all materials.
