Karen:

I agree with your math.

I will send you an amended list of five similar projects.

Best regards,

John Kearns  
Kearns Construction Comany

**Subject:** ITB #17-019 REBID: Half Shell Raw Bar Seawall Repair

John –

In reviewing your proposal I found that bid schedule line item #1 (\$44,000) is in excess of the allowed 10%. My calculation is as follows:

Line items 2 -7 = \$404,400 construction cost x 10% = \$40,440 max. allowed. Do you agree with my calculation? If so we will correct your bid price from \$448,400 to \$444,840.

Also, reviewing your experience I am finding it difficult to find 5 current, similar projects. Please provide this information.

Thanks

**Karen Olson**
