

“Composite Exhibit B”

Routes, Stands, Stops - CityView Trolleys of Key West, Inc.

The proposed fixed route, stops and stand are delineated on a Key West City map for vehicle “Type 1 CityView Trolley”, they include stops and routes already and historically used by CityView. Stop number 1 at Clinton Square shall be a double long stand. We would also like a new stop located in front of the Silver Palms Hotel on Truman Avenue subject to state road approval. This new stop would allow tourists better access to the Basilica, guesthouses, restaurants, and the fire house museum, and other nearby attractions.

The proposed fixed route, stops and stand will be similar to and only include roads allowed for “Type 1 Trolley” above for vehicle “Type 2 Articulated Train”, They include fewer stops and routes already and historically used by CityView. Stop number 1 at Clinton Square shall be a double long Stand.

The proposed fixed route, stops and stand are delineated on a Key West City map attached as for vehicle “Type 3 CityView Duck”, they include stops and routes already and historically used by CityView and that have been approved for Duck Tours Seafari, Inc.. Stop number 1 at Clinton Square shall be a double long Stand. We are requesting routes and stops previously approved by the City.
