The City of Key West  
3140 Flagler Avenue  
Key West, FL 33040

Project Description: Garrison Bight Bridge Repair - Monroe County/FDOT District Six LAP Project  
FPID: 431918-1-38-01  
REF: Nighttime Operations on Palm Avenue Causeway

**To Whom it May Concern:**

We are requesting that the City of Key West provide a resolution to allow nighttime construction to occur between the hours of 9:00PM to 6:00AM for asphalt milling/resurfacing and bridge deck repairs. Nighttime operations will begin on August 1<sup>st</sup>, 2017 and will be completed by the end of September. Construction will take place along Palm Avenue Causeway between Eisenhower Drive and North Roosevelt Boulevard. Approval of this resolution will eliminate the need for lane closures during the busy tourist season for the City of Key West, as the work on the traffic lanes will be complete by the end of September.

The night work generally consists of milling/resurfacing operations and bridge deck spall repair. This will require the operation of milling machines, paving machines, roller/compactors, dump trucks, delivery trucks, concrete saws and chipping hammers. Work associated with the bridge sidewalks, railings and underside bridge work can be completed during day time operations and will not require a noise exception.

The contractor will inform the businesses and residents within 100 feet of the project limits, one week in advance of the nighttime operations. The contractor's contact information for the project is:

**Luke Pappas**  
**Southern Road and Bridge**  
**715 Wesley Ave.**  
**Tarpon Springs, FL 34689**  
**Phone: (727) 224-3545**

We sincerely appreciate your consideration in this matter. Please do not hesitate to call me if you have any questions or need any additional information.

Best Regards,

Jason L. LaBarbera, P.E.  
Project Manager
