Yes...I am in agreement with renewing-extending our current contract at the original contract prices, hourly rates and percentage mark-ups.

Are you going to need my licenses and insurances sent to you as well...they are of course renewed-current and on record at the city...but I know sometimes you want it directly.

Vince –

Are you in agreement that this extension would be at the original contract hourly rates and percentage mark-ups?

Thanks

Vince –

Per your contract we can extend your contract, approved through res #16-175, with the CRA's approval. If you would like a one year extension it would be at the rates listed in exhibit "A" of your agreement. If these terms are acceptable to you please respond to this email indicating so.

Thanks
