

**Historic Architectural Review Commission
Staff Report for Item 7**

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Kelly Perkins, MHP
HARC Assistant Planner

Meeting Date: August 22, 2017

Applicant: William Shepler

Application Number: H17-03-0028

Address: #922 Thomas Street

Description of Work:

Demolition of rear wall of existing building. Demolition of rear covered porch.

Site Facts:

The one-story house at 922 Thomas Street is listed as a contributing resource in the survey, and was constructed in 1938 according to the survey. The building does not appear on the 1962 Sanborn map, but in the c.1965 photograph, it is clear that the building is not a new structure, as there are dirt stains on the metal shingled roof and the eaves show some wear and tear. It is most likely that the building was relocated to that site. The building has a front porch that has been enclosed. The 1960s screen wall that was on the front of the building was removed sometime after 2010 without a Certificate of Appropriateness. The rear of the house has an old casement window. A window of that same type shows on the front of the building in the c.1965 photograph.

Ordinances Cited in Review:

Sec. 102-218 (a): Criteria for demolition of a historic or contributing building.

Sec. 102-218 (b): Criteria for demolitions.

Staff Analysis

This Certificate of Appropriateness proposes the partial demolition of the rear wall of a contributing building and a small rear covered porch. Because the demolition request is for a very

small portion of the rear wall, staff does not feel that it meets any of the criteria listed in Sec. 102-218, and therefore can be considered for demolition:

- (1) The wall and porch do not embody distinctive characteristics and are not significant and distinguished entity. Staff feels that their components lack individual distinction.
- (2) The wall and porch are not specifically associated with events that have made a significant contribution to local, state, or national history;
- (3) The wall and porch have no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and are not associated with the life of a person significant in the past;
- (4) The wall and porch to be demolished are not the site of a historic event with a significant effect upon society;
- (5) The wall and porch do not exemplify the cultural, political, economic, social, or historic heritage of the city;
- (6) The wall and porch do not portray the environment in an era of history characterized by a distinctive architectural style;
- (7) The wall and porch are not related to a square, park, or other distinctive area.
- (8) The wall and porch do not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and
- (9) The wall and porch have not yielded, and are not likely to yield, information important in history.

Since this element is historic, two readings are required for demolition.
