

## Historic Architectural Review Commission Staff Report for Item 6

**To:** Chairman Bryan Green and Historic Architectural Review

**Commission Members** 

From: Kelly Perkins, MHP

**HARC** Assistant Planner

Meeting Date: January 23, 2018

**Applicant:** William Shepler

**Application Number:** H17-03-0019

Address: #715 Chapman Lane

\_\_\_\_\_

## **Description of Work:**

Partial demolition of rear wall.

## **Site Facts:**

The one-story house at 715 Chapman Lane is listed as a contributing resource in the survey, and was constructed in 1928 according to the survey, but appears in the 1912 Sanborn map. The building is a frame vernacular structure with a front gable roof. The rear has a sawtooth roof section that appears to be original, as the structure's length never changes on the Sanborn maps. From a site visit, it is obvious that the sawtooth section is very old. It also visible in the historic photograph from c.1965. The house has a mish-mash of windows, but all appear to be very old with the thin muntins and wavy glass.

## **Ordinances Cited in Review:**

Sec. 102-218 (a): Criteria for demolition of a historic or contributing building.

Sec. 102-218 (b): Criteria for demolitions.

## **Staff Analysis**

This Certificate of Appropriateness proposes the partial demolition of the rear wall of a contributing building in order to install sliding doors. Because the demolition request is for a very

small portion of the rear wall, staff does not feel that it meets any of the criteria listed in Sec. 102-218, and therefore can be considered for demolition:

- (1) The wall does not embody distinctive characteristics and are not significant and distinguished entity. Staff feels that their components lack individual distinction.
- (2) The wall is not specifically associated with events that have made a significant contribution to local, state, or national history;
- (3) The wall has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and are not associated with the life of a person significant in the past;
- (4) The wall to be demolished is not the site of a historic event with a significant effect upon society;
- (5) The wall does not exemplify the cultural, political, economic, social, or historic heritage of the city;
- (6) The wall does not portray the environment in an era of history characterized by a distinctive architectural style;
- (7) The wall is not related to a square, park, or other distinctive area.
- (8) The wall does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and
- (9) The wall has not yielded, and are not likely to yield, information important in history.

Since the wall is historic, two readings are required for demolition.
