MEMORANDUM

To: John Paul Castro, Utilities Director

From: Marcus Davila, Director Community Services

Date: February 14, 2018

Reference: City Street Cans

The Victor Stanley SD-42 container has proven to be far superior to other City street containers that we have used in the Key West Public Works Department in the past. The containers have the longest useful life observed by staff and stand up to the harsh weather conditions of an island. The maintenance cost savings over the life of lower quality receptacles exceeds the initial capital cost of purchasing Victor Stanley SD-42. We request the purchase of this specific model and Victor Stanley is the only producer and carrier for this product.
