

Historic Architectural Review Commission
Staff Report for Item 10

To: Chairman Bryan Greene and Historic Architectural Review Commission Members

From: Enid Torregrosa, MSHP
Historic Preservation Planner

Meeting Date: October 23, 2018

Applicant: T. Seth Neal

Application Number: H2018-012

Address: #514 Louisa Street

Description of Work:

Renovations to existing house. New one-story and two-story additions at rear. New side wood fence, new pool, and rear deck.

Site Facts:

The building under review is a contributing resource to the historic district. The frame structure, build circa 1933, is a one-story structure that converts into a two-story at the rear of the house. That configuration is evident in both Sanborn maps of 1948 and 1962. The current exterior side staircase as well as a rear-covered porch is not historic elements. The house has been neglected for decades and hurricane Irma damaged roof portions and the second floor walls. The first floor has asbestos siding and current windows are not historic; the circa 1965 photograph shows wood casement windows at the front and side elevations.

Guidelines Cited on Review:

- Building exteriors- Wood (Page 24), specifically guideline 1.
- Decorative elements and details (page 24), specifically guideline 1.
- Additions and Alterations (page 37a-37k), specifically guidelines 1, 2, 3, 5, 6, 11, 12, 13, 17, 22, 24, and 30.
- Decks, Patios, Hot Tubs and Pools (pages 39-40), specifically pages 1, 3, and 4.

Staff Analysis

The Certificate of Appropriateness in review is for the rehabilitation of the contributing house. The design includes a two-story addition to the rear of the historic building, new fences, and pool with deck located at the rear of the lot. The rehabilitation includes new wood lap siding as the asbestos siding will be removed, change of existing non-historic windows to wood 2 over 2 double hung with wood shutters, wood front porch deck and stopes, boxed wood columns, new wood door entrance, new gingerbread brackets, and new 5 v-crimp roofing system.

The design also includes the interior connection between the two floors by a new staircase, which will give access to the existing second floor and its new proposed rear addition. The new two-story rear addition will be lower in height than the existing structure and will be setback from the existing exterior wall plane. At the first floor level, the new rear addition will have exterior walls, opposite to the current dilapidated rear open porch. The addition will have wood lap siding and metal 5v-crimp. The rear elevation will have sliding doors at the first level.

The design also includes a small pool at the rear of the house with a pool deck. The design also includes a four feet tall wood picket fence with a gate.

Consistency with Guidelines

Staff opines that the proposed design will not have an adverse effect on the historic building or surrounding urban context. The structure is in need of renovations, as it has not been maintained for decades. The proposed rear addition will be lower than the existing rear portion of the house and the majority of the surrounding buildings are two-story height. Therefore, the new additions will not oversize the surrounding structures. Staff finds that the design, with the exception of the two gingerbread brackets proposed at the front porch, is consistent with the guidelines. Staff also finds the location of the new pool and deck to be consistent with the cited guidelines, as well as the new 4 feet front fence.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

THE WALLS TO BE REMOVED AT REAR ARE EXTREMELY DETERIORATED.

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

GROUND FLOOR WALLS EMBODY NO DISTINCTIVE CHARACTERISTICS

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

No

(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

No

(d) Is not the site of a historic event with significant effect upon society.

No

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

No

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

Does not exemplify the best remaining architecture of the neighborhood. It has been extremely neglected.

(i) Has not yielded, and is not likely to yield, information important in history.

NO

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies);

(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

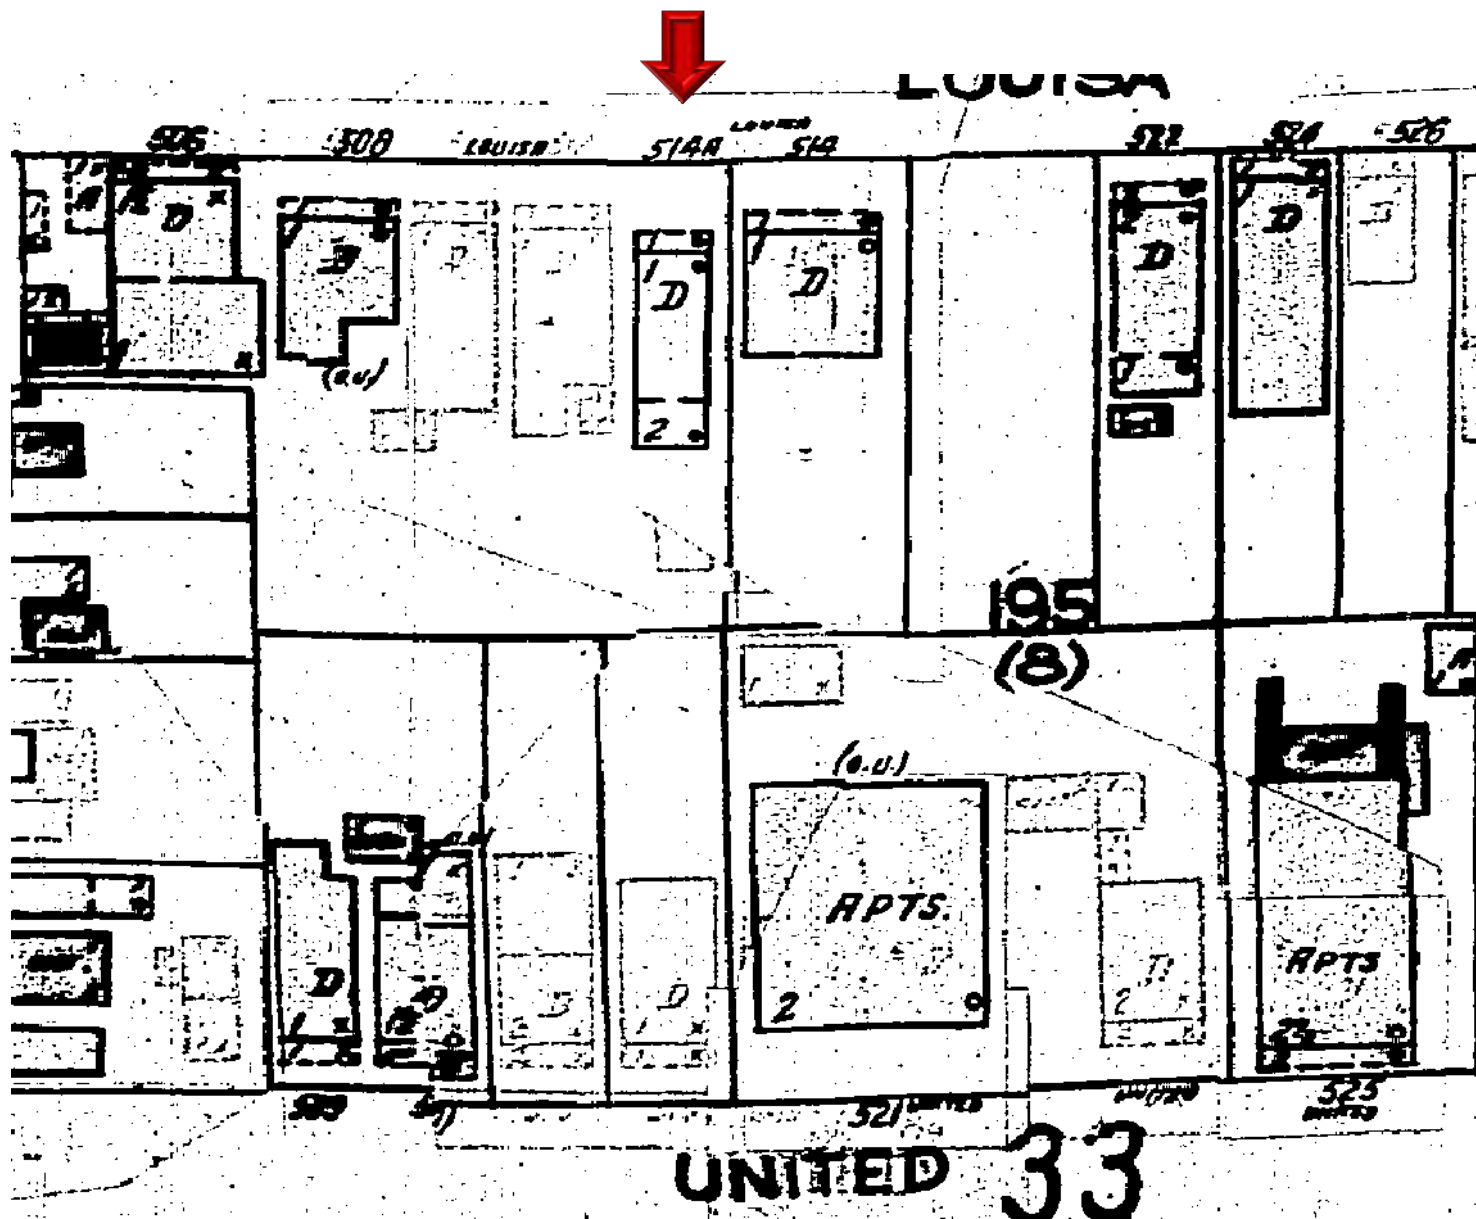

(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

(4) Removing buildings or structures that would otherwise qualify as contributing.
