Please Note: All pricing for plant material is based upon current availability and is subject to change. Due to the nature of plant material the item or specification you have requested may not be available at the time the order is placed. However we will exhaust all our resources to locate the item in the specification you require and will only substitute with your prior approval. Getting Green only ships quality Florida #1 material that has been hand selected by our Field Product Managers.* In addition the estimated freight cost is to be used as a guide only and is subject to change based upon factors beyond Getting Green's control such as distance to destination, the number of stops and customer detention charges. We will be happy to provide you with the exact freight cost at the time of order acceptance. If any of the items are highlighted and not quoted than the item is not currently available in the specification required.

Thank you for the opportunity to quote on this job. If you have any questions regarding this quote or our services please do not hesitate to contact us. **Please note that prices on this quote are good for 30 days.**
