**Historic Architectural Review Commission  
Staff Report for Item 16**

**To:** Chairman Bryan Green and Historic Architectural Review  
Commission Members

**From:** Enid Torregrosa, MSHP  
Historic Preservation Planner

**Meeting Date:** May 28, 2019

**Applicant:** Matthew Stratton, Architect

**Application Number:** H2019-0015

**Address:** #533 Petronia Street

---

**Description of Work**

Demolition of rear non-historic additions, carport, gazebo, and sheds.

**Site Facts**

The house under review is a contributing resource to the historic district. Build circa 1920, the house exhibits many alterations, particularly on its rear and side elevations. The frame vernacular house sits on the north side on the middle of the 500 block. No original windows or doors had survived.

**Ordinances Cited on Review**

- Section 102-217 (2), demolition for non-contributing or non-historic structures of the Land Development Regulations.

**Staff Analysis**

A Certificate of Appropriateness is under review for the demolition of rear additions, a carport, gazebo and a shed, all non-historic structures. The historic architectural review commission shall not issue a certificate of appropriateness that would result in:

- (1) *Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished;*

It is staff's opinion that the removal of the non- historic structures will not jeopardize the historic character of the house or the neighborhood. The rear additions and the accessory structure are not character-defining features in the site.

- (2) *Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space;*

The structures under review are not historic.

- (3) *Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.*

The structures under review are not significant or important in defining the historic character of the site or surrounding context.

- (4) *Removing buildings or structures that would otherwise qualify as contributing, as set forth in section 102-62(3).*

It is staff's opinion that the non-historic structures in question will not qualify as a contributing element to the house or to the site in a near future.

It is staff's opinion that the Commission can review the request for demolition. If approved this will be the only required reading for demolition.
