Staff Report for Item 8

To: Chairman Bryan Green and Historic Architectural Review Commission Members

From: Kathleen McDonald, MHP
Historic Preservation Planner II

Meeting Date: September 24, 2019

Applicant: William P. Horn, Architect

Application Number: H2019-0036

Address: #1227 Washington Street

Description of Work:

Demolition of non-historic rear porch and front porch infill.

Site Facts:

The site under review is a lot containing a one-story wood frame house, as well as a frame garage, a pool, and a pool house. Over the years the site has undergone additions and alterations, including the addition of the open, shed-roofed rear porch and the screening in of the once open front porch.

The house is a contributing historic residence, which was built in 1925. The rear porch and the front porch infill are elements that are not historic to the house.

Ordinances Cited on Review:

- Section 102-217 (2), demolition for non-contributing or non-historic structures of the Land Development Regulations.

Staff Analysis:

A Certificate of Appropriateness is under review for the demolition of a shed-roofed open porch at the rear of the historic house as well as the demolition of the existing porch infill at the front of the house.

The historic architectural review commission shall not issue a certificate of appropriateness that would result in:

- 1) *Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished;*

It is staff's opinion that the removal of the non-historic rear porch and front porch infill will have no effect on the historic character of the house. The removal of these alterations will actually bring the house closer to its original state.

- 2) *Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space;*

The structures under review are not historic.

- 3) *Removing a historic building or structure in a complex; or removing a building façade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood;*

The later alterations that were made to this house are not significant resources that define the historic character of the site or surrounding historic context. The later alterations actually obscure some character defining elements of the historic house.

- 4) *Removing buildings or structures that would otherwise qualify as contributing, as set forth in section 102-62(3).*

It is staff's opinion that the non-historic structures in question will not qualify as a contributing element to the site or to the historic district in the near future, as the alterations were made after the house's period of significance.

It is staff's opinion that the Commission can review the request for demolition. If approved, this will be the only required reading for demolition.
