

Additional evidence for complaint # 10-004 against O'Connell.

O'Connell was at my house on June 20th around 5 pm when I asked him how the case was going against the man who called and threatened my family with murder (case#19-1825) , he responded, "State attorney Weber has said they can move forward with a subpoena for the phone records with the information they have" ... There is video of this false statement , a statement made to further coverup a threat to kill my family.

1. O'Connell didn't turn the case over to the proper jurisdiction (per KWPd and the City of KW) after he found out where the call came from.
2. O'Connell didn't even talk to Weber about the Subpoena, as I later called Weber later to thank him and he had no idea what I was talking about.
3. O'Connell is just a long list of KWPd Officers, Sargants, Captains, and Chiefs that have targeted my family in a similar manner...by covering up crimes committed against my family.
4. O'Connell just put my case on the shelf ..and never took any action , and never got back to me about a urgent case where my family was threatened with murder.
5. The CRB, KWPd, and the City of KW made it very clear that concerning Florida Statute 365.16 that jurisdiction falls where the call is placed , not where the victim is. I ask that this issue with O'Connell gets addressed so that he comes into compliance with Florida law as interpreted by the CRB and the KWPd.
