Subject: City Commission Meeting and CRA Meeting

Thank you Ms. Obrien for assisting me with the e-comments, it is greatly appreciated!

E-Comment below.

We request that you abate (not defer) our April and May rent and that we come to an agreement going forward regarding a significantly reduced rent until business returns to something close to the old normal. We have been in business for over 34 years. We and the voters of Key West supported the referendum to purchase the bight to preserve its funky character and protect from over development. We have paid the City over ten million dollars since they became involved with us at the bight. A huge reserve fund has been created in part through our labors. We hope the City will help support us and our 80 employees as we all try to recover from this nightmare.

Respectfully, Evalena & Paul Worthington - Key West Seaport,LLC/Schooner Wharf Bar

Best to you, stay healthy and happy!

Sheree
