B. SCOPE OF WORK/SERVICES

Professional Services - Civil Engineering, Traffic Engineering,

Transportation Planning and Landscape Architecture

B.1 Nature of Services

The City seeks Proposals from qualified individuals, firms or multi-disciplinary teams (Vendor) who are capable of providing civil engineering, traffic engineering, urban planning, and transportation planning services to the City. Financial services will also be required. Vendors must have experience assisting municipalities in funding similar projects through creative use of grants and special districts.

Duval Street, at fourteen blocks long, is the "Main Street"/Central Business District for the City of Key West. It is zoned as an historic district overlay. Extensive renovations have not been performed on Duval Street for over 40 years. The goal of the Project is to renovate and revitalize Duval Street to increase opportunities for public use as an iconic civic space for leisure, commerce, and tourism; address the infrastructure which will allow for reasonable maintenance frequency and reduce costs to businesses and taxpayers; improve safety for pedestrians and vehicles; and maintain mobility for desired transit operations for all users.

The competitive selection process provided for under this RFQ will focus on the qualifications and prior history of performance on similar projects of each prime firm and the members of the prime firm's proposed team, in accordance with the selection criteria set forth in this RFQ.

The City wishes to apply a Complete Streets policy to standard design guidelines and best practices to make Duval a truly unique experience for all users. Next, the City seeks to incorporate green infrastructure and low impact development strategies (i.e. shade trees, rain garden curb extensions, porous asphalt, etc.) to reduce stormwater run-off, urbanized flooding and the urban heat island effect as well as improve the ecological value of the corridor through a Green Streets approach. Finally, the City desires to enhance the charm and aesthetic value of Duval Street by including such streetscape design features as pedestrian-oriented lighting, street furniture, trash receptacles, wayfinding, gateway and interpretive signage, as well as other amenities as may be developed.

The successful vendor must have significant experience in providing civil engineering, traffic engineering and transportation planning services within a historic preservation context to Florida counties, municipalities, or other public entities.

The vendor shall engage in a robust visioning and public outreach effort which shall include no less than three (3) public meetings. The vendor shall prepare conceptual design alternatives which shall

include a vision summary and at least three (3) conceptual designs for city and community review. These three conceptual designs must be scaled in both cost and scope in order to provide the City with options based on available funding. Each vendor will be prepared to present the three conceptual designs during a City Commission meeting.

The selected vendor shall prepare the final design selection which shall include an alternative analysis and final concept plan, revisions per city and community review, revisions to the final conceptual plan, renderings and engineer's cost estimates. Due to funding constraints for construction, it will be necessary for the vendor to break the design plans into multiple phases to be constructed over multiple fiscal years. Accommodating local businesses to the maximum extent practical will be a requirement of the construction phase.

B.2 Stormwater Management

The vendor will design and plan with consideration of stormwater management. As Key West is low lying and experiences significant tidal effects and rain events, there is a need to manage large amounts of water. The vendor will develop a system and street design that mitigates the impacts of water.

The stormwater design shall be derived from stormwater analysis/modeling considering at minimum a 5-year 24-hour storm event with 25-year 24-hour event being preferred. The design should capture no less rainfall than existing conditions.

B.3 Traffic Management

The vendor will calculate and present the pedestrian, bicycle, commercial, and automobile traffic and parking effects of each design concept.

B.4 Outreach, Marketing, Consensus Building

The vendor shall provide a conceptual approach to the public information and outreach campaign during design and eventual construction. Stakeholders include, but are not limited to, the City, Duval Street businesses, adjacent businesses, visitors and residents of Key West. Describe how the vendor will identify and address stakeholder's primary concerns. Discussion of, or graphic examples of successful public information and outreach materials implemented on recent similar projects should be provided.

B.5 Financial Opportunities

The vendor will work with the City to obtain grants and develop sources of revenue to pay for the construction of the project and its maintenance. As this project is for a revitalization and maintaining

that revitalization, the capital costs may be extensive and seeking grants will be key to performing the project. The vendor will assist the City in the identifying, preparing, and writing the grants. Additionally, the vendor will work with the City to identify revenue sources and cost efficiencies to maintain Duval Street for the next fifty years. The vendor will provide examples of past performance and success in generating sources of revenue.

B.6 Maintenance Planning

The Firm will develop a maintenance plan for the City to utilize for the next fifty years. In order to keep the revitalization active, maintaining the improvements is vital. This maintenance plan should include capital replacement of all major components with a scheduled intended useful life that allows for future financial planning of high cost items.

- 3.3. CONSULTANT and CITY acknowledge that the Scope of Services does not delineate every detail and minor work task required to be performed by CONSULTANT to complete any particular task order. If, during the course of the performance of the services included in this Agreement, CONSULTANT determines that work should be performed to complete the Task Order which is, in the CONSULTANT's opinion, outside the level of effort originally anticipated, whether or not the Scope of Services identifies the work items, CONSULTANT shall notify Contract Administrator in writing in a timely manner before proceeding with the work. - 3.4.4. A Task Order may be terminated at any time, with or without cause, by the CITY upon written notice to CONSULTANT. CONSULTANT shall perform no further work upon receipt of this notice unless specifically authorized by the City Manager of the City of Key West. On termination, the CONSULTANT shall be paid for all authorized services performed up to the termination date plus, if terminated for the convenience of the CITY, reasonable expenses incurred during the close-out of the Task Order. The CITY shall not pay for anticipatory profits. The termination of this Agreement pursuant to Paragraph 7.2, hereof, shall constitute the termination of any and all outstanding Task Orders.

TERM OF AGREEMENT; TIME FOR PERFORMANCE; CONTRACTOR DAMAGES;

The term of this Agreement	shall be for a period of three (3) years from the effective date	of the Agreement
with the option of	year renewal. The Agreement will be in effect upon exe	ecution by both

- **4.5.** In the event Contractor fails to substantially complete the Task Order on or before the substantial completion date specified in its agreement with CITY, and the failure to substantially complete is caused in whole or in part by a negligent act, error or omission of CONSULTANT, then CONSULTANT shall pay to CITY its proportional share of any claim or damages to Contractor or CITY arising out of the delay. This provision shall not affect the rights and obligations of either party as set forth in Paragraph 7.8, INDEMNIFICATION OF CITY.
