Karen,

Ebsary honors the bid price of \$643,520. Our estimating software automatically allocates overhead/profit/allowances/etc. across bid items and a newer employee ran the report without accounting for the pre-filled bid items in the bid package. This resulted in the double allocation of the allowance items in our bid schedule. The total bid amount is accurate and we will correct the bid schedule of values to reflect.

Thank you for bringing to our attention and I apologize for any inconvenience this causes your office. If you need any additional info from us please let me know.

Regards,

**Bobby Brown**

Bobby –

After reviewing your proposal we have found a significant mathematical error. Does Ebsary Foundation Company honor the submitted total base bid price of \$643,520?
