Subject: Fw: Petition for us1 light

Shawn,

Can I add a resolution for the August 4th meeting for the below email.

Asking FDOT to permanently leave the traffic light at US1 and college road at Murray Marine.

Thanks

Billy

Hello, everyone. At Greg Sullivan's suggestion I have attached the list of respondents to our petition.

In addition, the following wording was used in the document:

Petition to the Florida Department of Transportation

Petition summary and background We are petitioning the FDOT to replace the temporary stoplight at the corner of College Road and A1A (closest to the CVS) with a permanent stoplight. We are very satisfied with the increased safety and ease of turning that the placement of this light has made for our community. The intersection in question has always been a major area for collisions and the stoplight makes entering and leaving College Rd and the Key West Golf Club Community much safer for our residents, school buses and emergency vehicles as well as for pedestrians wishing to cross a busy highway. June 17,2020

Action petitioned for We, the undersigned want the FDOT to install and maintain a permanent stoplight with turning arrows at the above cited location. Thank you!!

Good morning all, Commissioners & City Manager
Joe Caso lives in the Golf Course and has 222 signatures that want to keep the light on north College Road. He has also been in contact with the College and Hospital, all in support.
Given this area is combine county and city I have included you. Hopefully as a group we can get DOT to keep the light in place.

Thanks for your support.
