

Historic Architectural Review Commission Staff Report for Item 5

To: Chairman Bryan Green and Historic Architectural Review Commission Members

From: Kathleen McDonald, MHP
Historic Preservation Planner II

Meeting Date: March 23, 2021
February 24, 2021 - **Postponed**

Applicant: Ray Pritchett

Address: #1311 Eliza Street

Description of Work:

Renovations to historic house. New ~~288 square foot~~ rear addition.

Site Facts:

The site under review is located at 1311 Eliza Street. According to our survey, the primary structure at 1311 Eliza is historic and contributing to the historic district, with a year built circa 1906. There is an existing, historic sawtooth addition, as well as an existing, non-historic shed roof addition at the rear of the structure. There is also a non-historic shed structure in the rear yard of the property, which has been staff-approved for demolition.

Guidelines Cited on Review:

- Guidelines for Windows (pages 29-30), specifically guideline 3.
- Guidelines for Additions and Alterations to Contributing, Non-Contributing and Non-Historic Buildings and Structures (pages 37a-37k), specifically guidelines 1, 6, 11, 12, 13, 14, 19, 22, 26, 29, 30, 32 and 33.
- Guidelines for Decks, Patios, Hot Tubs and Pools (pages 39-40).

Staff Analysis:

The Certificate of Appropriateness under review proposes renovations and a new rear addition to the historic house at 1311 Eliza Street. A pool, wood deck and site improvements are also part of this application.

Renovations to the historic house include a proposal to return the existing enclosed front porch to an open front porch through removal of the walls. Renovations also include replacement of all

existing jalousie windows with single-hung wood impact windows. The window configuration on the East elevation of the main part of the historic house is also to be changed. The first window will remain, the 2nd and 3rd windows are to be shifted to the right, and the fourth window is to be removed.

A new sawtooth addition is proposed at the rear of the historic structure, where there is currently a non-historic, non-contributing shed roof addition. To accommodate the new addition, the existing non-historic shed roof addition would need to be demolished. The newly proposed addition would be approximately 190 square-feet and would reach a maximum height of approximately 16 feet 2 inches from grade, which is the same height as the existing historic sawtooth addition and is 4 feet 5 inches below the ridgeline of the main part of the historic house. The roof of the new addition would be a side gable that would utilize 5 v-crimp roofing, and a cricket would be installed between the roof of the new addition and that of the existing sawtooth. Siding and framing are proposed to be wood to match existing.

This application also includes a 96 square-foot pool and a wood deck at the rear of the property. Site improvements include fencing and paving.

Consistency with Cited Guidelines:

Staff finds most of the proposed renovations to the historic house to be consistent with the cited guidelines. The proposed reconfiguration of the historic window openings on the East elevation is the only inconsistency staff finds, which goes against guideline 3 under Windows. Guideline 3 states, "Replacement windows on contributing structures should be made to fit the original window opening without the use of blocking or infill. Such replacement windows, sills, muntins, sashes, surrounds and other window features should be of similar and compatible configuration, material, size, design, and placement as those of original windows." However, the proposed replacement of all existing jalousie windows with wood impact units is consistent with guideline 3 for Windows, as the jalousies are proposed to be replaced with more historically accurate wood windows. The proposed renovations to the front porch are consistent with guidelines 32 and 33 for additions and alterations, as the proposed renovations restore the look of the front porch to the historic layout shown in the 1965 photo.

Staff also finds that the proposed rear sawtooth addition meets all of the cited guidelines for Additions and Alterations. The proposed sawtooth requires no or minimal changes to the character defining features of the building and is attached to the least public elevation—the rear. Size and scale are limited in relationship to the historic building, as well as to the surrounding structures in the area. The proposed sawtooth form has historically been a common type of addition in the district and the proposed massing for this project is appropriate to the existing structure at 1311 Eliza. Finally, proportions, rhythms and materials for the proposed addition will all be harmonious to those of the existing historic structure.

The proposed pool and wood deck at the rear of the property meet the guidelines for deck, patios, hot tubs and pools.

DETAILED PROJECT DESCRIPTION OF DEMOLITION

Demo of enclosed walls & front porch (original roof + porch post to remain)
 Demo of ~~1~~ Non contributing structure at rear of house. This structure
 is a later addition & ~~is~~ not historic nor structurally sound.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

The 1 rear addition has structural damage due to roof leaks and
 are non contributing

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

The area described above have non historic siding & materials Not of
 historic value. Framing in area to be removed is newer & has water damage

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

The rear structure has plywood sides + TPO flat roof,
Siding on porch enclosure has different siding + Framing

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

N/A

(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

N/A

(d) Is not the site of a historic event with significant effect upon society.

N/A

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

The original structure I feel embodies that wooden
conch house which we want to restore. We wish to
only remove the non contributing structures.

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

These structures are made with newer materials no
from time of original house

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

N/A

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

This structure has no distinctive characteristics of neighborhood. In my opinion it hinders what the house originally looked like.

(i) Has not yielded, and is not likely to yield, information important in history.

no

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies);

(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

(4) Removing buildings or structures that would otherwise qualify as contributing.

These structures are not contributing
