Attachments: Ft Zach proposed circle planting.pdf

REQUEST FOR ESTIMATE

The city wants to finish the sidewalk street planting along the Ft. Zachary traffic circle (see attached map). We need 9-Green Buttonwood trees, each tree must be a FL#1, single trunk with a minimum of 4 ft of clear trunk, 2 inch diameter and 10-12 ft tall.

Please submit an estimate to purchase and plant these trees at Truman Park. Planting should include the placement of mulch once the trees have been planted. There is supposed to be irrigation installed in the area but you will need to provide your own water or make arrangements for water for the planting.

Please submit the estimate to my office by noon on Monday, August 9, 2021.

Sincerely,

Karen
