To HARC Board and to whom it may concern:

We reside at 306 Amelia Street and are concerned about the proposed development of an oversized excessively large home scheduled for construction on 314 Amelia Street.

After looking at the drawings of the proposed building it appears to be non-conforming with the existing character of homes on the street.

Please make sure the building is in character and in proportion with existing residences on the street which is, and was the very reason HARC was created in order to protect the integrity of historic neighborhoods.
